## GENERAL DESCRIPTION OF THE TRUST AND THE FUND

The Trust was organized as a Massachusetts business trust on January 6, 2015, and is authorized to issue an unlimited number of shares in one or more series or “Funds.” The Trust is an open-end management investment company, registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Trust currently offers shares in four series, including the Fund, a non-diversified series.

This SAI relates to the Fund. The Fund, as a series of the Trust, represents a beneficial interest in a separate portfolio of securities and other assets, with its own objective and policies.

The Board of Trustees of the Trust (the “Board of Trustees” or the “Trustees”) has the right to establish additional series in the future, to determine the preferences, voting powers, rights and privileges thereof and to modify such preferences, voting powers, rights and privileges without shareholder approval. Shares of any series may also be divided into one or more classes at the discretion of the Trustees.

The Trust or any series or class thereof may be terminated at any time by the Board of Trustees upon written notice to the shareholders.

Each share has one vote with respect to matters upon which a shareholder vote is required, consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all series of the Trust vote together as a single class except as otherwise required by the 1940 Act, or if the matter being voted on affects only a particular series; and, if a matter affects a particular series differently from other series, the shares of that series will vote separately on such matter. The Trust’s Declaration of Trust (the “Declaration”) requires a shareholder vote only on those matters where the 1940 Act requires a vote of shareholders and otherwise permits the Trustees to take actions without seeking the consent of shareholders. For example, the Declaration gives the Trustees broad authority to approve reorganizations between the Fund and another entity, such as another exchange-traded fund, or the sale of all or substantially all of the Fund’s assets, or the termination of the Trust or the Fund without shareholder approval if the 1940 Act would not require such approval.

The Declaration provides that by becoming a shareholder of the Fund, each shareholder shall be expressly held to have agreed to be bound by the provisions of the Declaration and to any By-laws adopted by the Fund. The provisions of the Declaration state that shareholders have no rights, privileges, claims or remedies under any contract or agreement entered into by the Trust or the Fund with any service provider or other agent to or contractor with the Trust or the Fund including, without limitation, any third party beneficiary rights. In addition, under the Declaration, shareholders do not have appraisal rights with respect to their shares and, except as the Trustees may determine from time to time, shall have no right to acquire, purchase or subscribe for any shares or securities of the Fund that it may issue or sell, or have any preference, preemptive, conversion or exchange rights. The provisions of the Declaration, any By-laws of the Fund and any contract or agreement entered into by the Trust or the Fund governed by applicable state law do not effect the rights of any shareholder under any provision of the Securities Act of 1933, as amended (the “1933 Act”), the Securities Exchange Act of 1934, as amended (the “1934 Act”), or the 1940 Act, or any rule, regulation or order of the Securities Exchange Commission thereunder.

The Declaration may, except in limited circumstances, be amended by the Trustees in any respect without a shareholder vote. The Declaration provides that the Trustees may establish the number of Trustees and that vacancies on the Board of Trustees may be filled by the remaining Trustees, except when election of Trustees by the shareholders is required under the 1940 Act. Trustees are then elected by a plurality of votes cast by shareholders at a meeting at which a quorum is present. The Declaration also provides that Trustees may be removed, with or without cause, by a vote of shareholders holding at least two-thirds of the voting power of the Trust, or by a vote of two-thirds of the remaining Trustees. The provisions of the Declaration relating to the election and removal of Trustees may not be amended without the approval of two-thirds of the Trustees.

The holders of Fund shares are required to disclose information on direct or indirect ownership of Fund shares as may be required to comply with various laws applicable to the Fund or as the Trustees may determine, and ownership of Fund shares may be disclosed by the Fund if so required by law or regulation. In addition, pursuant to the Declaration, the Trustees may, in their discretion, require the Trust to redeem shares held by any shareholder for any reason under terms set by the Trustees.

The Declaration provides a detailed process for the bringing of derivative actions by shareholders, and provides that actions that are derivative in nature may not be brought directly, in order to permit legitimate inquiries and claims while avoiding the time, expense, distraction and other harm that can be caused to the Fund or its shareholders as a result of spurious shareholder claims, demands and derivative actions. Prior to bringing a derivative action, a demand must first be made on the Trustees. The Declaration details various information, certifications, undertakings and acknowledgements that must be included in the demand. Following receipt of the demand, the Trustees have a period of 90 days, which may be extended by an additional 60 days, to consider the demand. If a majority of the Trustees who are considered independent for the purposes of considering the demand determine that maintaining the suit would not be in the best interests of the Fund, the Trustees are required to reject the demand and the complaining shareholder may not proceed with the derivative action unless the shareholder is able to sustain the burden of proof to a court that the decision of the Trustees not to pursue the requested action was not a good faith exercise of their business judgment on behalf of the Fund. In making such a determination, a Trustee is not considered to have a personal financial interest by virtue of being compensated for his or her services as a Trustee.

If a demand is rejected as set forth above, the complaining shareholder will be responsible for the costs and expenses (including attorneys' fees) incurred by the Fund in connection with the consideration of the demand under a number of circumstances. In addition, if a court determines that a derivative action was made without reasonable cause or for an improper purpose, or if a derivative or direct action is dismissed on the basis of a failure to comply with the procedural provisions relating to shareholder actions as set forth in the Declaration, or if a direct action is dismissed by a court for failure to state a claim, the shareholder bringing the action may be responsible for the Fund's costs, including attorneys' fees.

The provisions of the Declaration provide that any direct or derivative action commenced by a shareholder must be brought only in the U.S. District Court for the District of Massachusetts (Boston Division) or if any such action may not be brought in that court, then in the Business Litigation Session of Suffolk Superior Court in Massachusetts (the "*Chosen Courts*"). Except as prohibited by applicable law, if a shareholder commences an applicable action in a court other than a Chosen Court, then such shareholder may be obligated to reimburse the Fund and any applicable Trustee or officer of the Fund made party to such proceeding for the costs and expenses (including attorneys' fees) incurred in connection with any successful motion to dismiss, stay or transfer of the action. The Declaration also provides that any shareholder bringing an action against the Fund waives the right to trial by jury to the fullest extent permitted by law.

The Declaration provides that no provision of the Declaration may require a waiver of compliance with any provision of the 1933 Act, the 1934 Act or the 1940 Act, or any rule, regulation or order of the Securities and Exchange Commission thereunder. The provisions of the Declaration are severable, and if the Trustees determine, with the advice of counsel, that any such provision, in whole or in part, conflict with applicable laws and regulations, the conflicting provisions, or part or parts thereof, will be deemed to be not part of the Declaration (provided, that any such determination will not render any of the remaining provisions invalid or improper).

The Trust is not required to and does not intend to hold annual meetings of shareholders.

Under Massachusetts law applicable to Massachusetts business trusts, shareholders of such a trust may, under certain circumstances, be held personally liable as partners for its obligations. However, the Declaration contains an express disclaimer of shareholder liability for acts or obligations of the Trust and requires that notice of this disclaimer be given in each agreement, obligation or instrument entered into or executed by the Trust or the Trustees. The Declaration further provides for indemnification out of the assets and property of the Trust for all losses and expenses of any shareholder held personally liable for the obligations of the Trust. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which both inadequate insurance existed and the Trust or the Fund itself was unable to meet its obligations.

The Declaration further provides that a Trustee acting in his or her capacity as Trustee is not personally liable to any person other than the Trust or its series in connection with the affairs of the Trust or for any act, omission, or obligation of the Trust. The Declaration requires the Trust to indemnify any persons who are or who have been Trustees, officers or employees of the Trust for any liability for actions or failure to act except to the extent prohibited by applicable federal law. In making any determination as to whether any person is entitled to the advancement of expenses in connection with a claim for which indemnification is sought, such person is entitled to a rebuttable presumption that he or she did not engage in conduct for which indemnification is not available. The Declaration provides that any Trustee who serves as chair of the Board of Trustees or of a committee of the Board of Trustees, lead independent Trustee, or audit committee financial expert, or in any other similar capacity will not be subject to any greater standard of care or liability because of such position.

The Fund is advised by Amplify Investments LLC (the “*Adviser*” or “*Amplify Investments*”). Penserra Capital Management LLC (“*Penserra*” or the “*Sub-Adviser*”) serves as investment sub-adviser to the Fund.

The shares of the Fund list and principally trade on BATS BZX Exchange, Inc. (“*BATS*” or the “*Exchange*”). The shares will trade on the Exchange at market prices that may be below, at or above net asset value. The Fund offers and issues shares at net asset value only in aggregations of a specified number of shares (each a “*Creation Unit*” or a “*Creation Unit Aggregation*”), generally in exchange for a basket of securities (the “*Deposit Securities*”) included in the Fund’s portfolio, together with the deposit of a specified cash payment (the “*Cash Component*”). Shares are redeemable only in Creation Unit Aggregations and, generally, in exchange for portfolio securities and a specified cash payment. Creation Units are aggregations of 50,000 shares of the Fund.

The Trust reserves the right to permit creations and redemptions of Fund shares to be made in whole or in part on a cash basis under certain circumstances. Fund shares may be issued in advance of receipt of Deposit Securities subject to various conditions including a requirement to maintain on deposit with the Fund cash at least equal to 105% of the market value of the missing Deposit Securities. See the “Creation and Redemption of Creation Unit Aggregations” section. In each instance of such cash creations or redemptions, transaction fees may be imposed that will be higher than the transaction fees associated with in-kind creations or redemptions. In all cases, such fees will be limited in accordance with the requirements of the Securities and Exchange Commission (the “*SEC*”) applicable to management investment companies offering redeemable securities.

#### EXCHANGE LISTING AND TRADING

There can be no assurance that the requirements of the Exchange necessary to maintain the listing of shares of the Fund will continue to be met. The Exchange may, but is not required to, remove the shares of the Fund from listing if: (i) following the initial 12-month period beginning at the commencement of trading of the Fund, there are fewer than 50 beneficial owners of the shares of the Fund for 30 or more consecutive trading days; or (ii) such other event shall occur or condition exist that, in the opinion of the Exchange makes further dealings on the Exchange inadvisable. The Exchange will remove the shares of the Fund from listing and trading upon termination of the Fund.

As in the case of other stocks traded on the Exchange, brokers’ commissions on transactions will be based on negotiated commission rates at customary levels.

The Fund reserves the right to adjust the price levels of shares in the future to help maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

## INVESTMENT OBJECTIVES AND POLICIES

The Prospectus describes the investment objectives and certain policies of the Fund. The following supplements the information contained in the Prospectus concerning the investment objective and policies of the Fund.

The Fund is subject to the following fundamental policies, which may not be changed without approval of the holders of a majority of the outstanding voting securities (as such term is defined in the 1940 Act) of the Fund:

- (1) The Fund may not issue senior securities, except as permitted under the 1940 Act.
- (2) The Fund may not borrow money, except as permitted under the 1940 Act.
- (3) The Fund will not underwrite the securities of other issuers except to the extent the Fund may be considered an underwriter under the 1933 Act in connection with the purchase and sale of portfolio securities.
- (4) The Fund will not purchase or sell real estate or interests therein, unless acquired as a result of ownership of securities or other instruments (but this shall not prohibit the Fund from purchasing or selling securities or other instruments backed by real estate or of issuers engaged in real estate activities).
- (5) The Fund may not make loans, except as permitted under the 1940 Act and exemptive orders granted thereunder.
- (6) The Fund may not purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from purchasing or selling options, futures contracts, forward contracts or other derivative instruments, or from investing in securities or other instruments backed by physical commodities).
- (7) The Fund will concentrate its investments in the securities of issuers engaged in energy-related industries or group of industries, as the term “concentrate” is used in the 1940 Act. This restriction does not apply to obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities, or securities of other investment companies.

For purposes of applying restriction (1) above, under the 1940 Act as currently in effect, the Fund is not permitted to issue senior securities, except that the Fund may borrow from any bank if immediately after such borrowing the value of the Fund’s total assets is at least 300% of the principal amount of all of the Fund’s borrowings (*i.e.*, the principal amount of the borrowings may not exceed 33 1/3% of the Fund’s total assets). In the event that such asset coverage shall at any time fall below 300% the Fund shall, within three days thereafter (not including Sundays and holidays), reduce the amount of its borrowings to an extent that the asset coverage of such borrowings shall be at least 300%. The fundamental investment limitations set forth above limit the Fund’s ability to engage in certain investment practices and purchase securities or other instruments to the extent permitted by, or consistent with, applicable law. As such, these limitations will change as the statute, rules, regulations or orders (or, if applicable, interpretations) change, and no shareholder vote will be required or sought.

For purposes of applying restriction (5) above, the Fund may not make loans to other persons, except through (i) the purchase of debt securities permissible under the Fund's investment policies, (ii) repurchase agreements, or (iii) the lending of portfolio securities, provided that no such loan of portfolio securities may be made by the Fund if, as a result, the aggregate of such loans would exceed 33-1/3% of the value of the Fund's total assets.

Except for restriction (2), if a percentage restriction is adhered to at the time of investment, a later increase in percentage resulting from a change in market value of the investment or the total assets will not constitute a violation of that restriction. With respect to restriction (2), if the limitations are exceeded as a result of a change in market value then the Fund will reduce the amount of borrowings within three days thereafter to the extent necessary to comply with the limitations (not including Sundays and holidays).

The foregoing fundamental policies of the Fund may not be changed without the affirmative vote of the majority of the outstanding voting securities of the Fund. The 1940 Act defines a majority vote as the vote of the lesser of (i) 67% or more of the voting securities represented at a meeting at which more than 50% of the outstanding securities are represented; or (ii) more than 50% of the outstanding voting securities. With respect to the submission of a change in an investment policy to the holders of outstanding voting securities of the Fund, such matter shall be deemed to have been effectively acted upon with respect to the Fund if a majority of the outstanding voting securities of the Fund vote for the approval of such matter, notwithstanding that such matter has not been approved by the holders of a majority of the outstanding voting securities of any other series of the Trust affected by such matter.

In addition to the foregoing fundamental policies, the Fund is also subject to strategies and policies discussed herein which, unless otherwise noted, are non-fundamental policies and may be changed by the Board of Trustees.

#### **INVESTMENT STRATEGIES**

Under normal circumstances, the Fund will invest in equity securities of energy master limited partnerships ("*MLPs*") that are based in North America and selectively hedges these positions to limit the correlation of its performance to the price of West Texas Intermediate Crude Oil ("*WTI Crude Oil*"). Fund shareholders are entitled to 60 days' notice prior to any change in this non-fundamental investment policy.

## TYPES OF INVESTMENTS

*Equities.* The Fund invests in equity securities of MLPs. Equity securities represent an ownership position in a company. The prices of equity securities fluctuate based on, among other things, events specific to their issuers and market, economic, and other conditions. Equity securities in which the Fund invests include common stocks.

*Exchange-Traded Funds.* The Fund may invest in exchange-traded funds (“ETFs”). ETFs trade on a securities exchange and their shares may, at times, trade at a premium or discount to their net asset value. Most ETFs hold a portfolio of common stocks or bonds designed to track the performance of a securities index, including industry, sector, country and region indexes, but an ETF may not replicate exactly the performance of the index it seeks to track for a number of reasons, including transaction costs incurred by the ETF. As a stockholder in an ETF, the Fund will bear its ratable share of that investment ETF’s expenses and would remain subject to payment of the ETF’s advisory and administrative fees with respect to assets so invested. Shareholders would therefore be subject to duplicative expenses. The Fund will also incur brokerage costs when purchasing and selling shares of ETFs.

*Exchange-Traded Notes.* The Fund may invest in exchange-traded notes (“ETNs”). ETNs are structured debt securities whereby the issuer of the ETN promises to pay ETN holders the return on an index or market segment over a certain period of time and then return the principal of the investment at maturity. Most ETFs and ETNs are designed to track a particular market segment or index, although an ETF or ETN may be actively managed. ETFs and ETNs share expenses associated with their operation, typically including advisory fees and other management expenses. When the Fund invests in an ETF or ETN, in addition to directly bearing expenses associated with its own operations, it will bear its pro rata portion of the ETF’s or ETN’s expenses.

*Futures Contracts & Commodity Swaps.* The Fund may use futures contracts and/or commodity swaps to seek to enhance return, to hedge some of the risks of its investments in securities, as a substitute for a position in the underlying asset, to reduce transaction costs, to maintain full market exposure (which means to adjust the characteristics of their investments to more closely approximate those of the markets in which it invests), to manage cash flows, to limit exposure to losses due to changes to non-U.S. currency exchange rates or to preserve capital.

The Fund will comply with the regulatory requirements of the SEC and the Commodity Futures Trading Commission (“CFTC”) with respect to coverage of futures and swaps positions by registered investment companies and, if the guidelines so require, will earmark or set aside cash, U.S. government securities, high-grade liquid debt securities and/or other liquid assets permitted by the SEC and CFTC in a segregated custodial account in the amount prescribed (or take such other actions permitted by law). Securities earmarked or held in a segregated account cannot be sold while the futures or swaps position is outstanding, unless replaced with other permissible assets, and will be marked to market daily.

Without limiting the foregoing, the Fund may use other derivatives from time to time and other methods of segregation or cover as permitted by applicable law.

To the extent that the Fund makes investments regulated by the CFTC, it will do so in accordance with Rule 4.5 under the Commodity Exchange Act (“CEA”). The Trust, on behalf of the Fund, has filed a notice of eligibility for exclusion from the definition of the term “commodity pool operator” in accordance with Rule 4.5, and, therefore, the Fund would not be subject to registration or regulation as a commodity pool operator under the CEA to the extent that it complies with the requirements of the rule.

*Master Limited Partnerships.* MLPs are limited partnerships whose shares (or units) are listed and traded on a U.S. securities exchange, just like common stock. To qualify as an MLP, a partnership must receive at least 90% of its income from qualifying sources such as natural resource activities. Natural resource activities include the exploration, development, mining, production, processing, refining, transportation, storage and marketing of mineral or natural resources. MLPs generally have two classes of owners, the general partner and limited partners. The general partner, which is generally a major energy company, investment fund or the management of the MLP, typically controls the MLP through a 2% general partner equity interest in the MLP plus common units and subordinated units. Limited partners own the remainder of the partnership, through ownership of common units, and have a limited role in the partnership’s operations and management.

*Fixed Income Investments and Cash Equivalents.* Normally, the Fund invests substantially all of its assets to meet its investment objectives; however, the Fund may invest in fixed income investments and cash equivalents.

Fixed income investments and cash equivalents held by the Fund may include the following types of investments:

(1) The Fund may invest in U.S. government securities, including bills, notes and bonds differing as to maturity and rates of interest, which are either issued or guaranteed by the U.S. Treasury or by U.S. government agencies or instrumentalities. U.S. government securities include securities that are issued or guaranteed by the U.S. Treasury, by various agencies of the U.S. government, or by various instrumentalities that have been established or sponsored by the U.S. government. U.S. Treasury securities are backed by the “full faith and credit” of the United States. Securities issued or guaranteed by federal agencies and U.S. government-sponsored instrumentalities may or may not be backed by the full faith and credit of the United States. Some of the U.S. government agencies that issue or guarantee securities include the Export-Import Bank of the United States, Federal Housing Administration, Maritime Administration, Small Business Administration and The Tennessee Valley Authority. An instrumentality of the U.S. government is a government agency organized under Federal charter with government supervision. Instrumentalities issuing or guaranteeing securities include, among others, Federal Home Loan Banks, the Federal Land Banks, Central Bank for Cooperatives, Federal Intermediate Credit Banks and the Federal National Mortgage Association. In the case of those U.S. government securities not backed by the full faith and credit of the United States, the investor must look principally to the agency or instrumentality issuing or guaranteeing the security for ultimate repayment, and may not be able to assert a claim against the United States itself in the event that the agency or instrumentality does not meet its commitment. The U.S. government, its agencies and instrumentalities do not guarantee the market value of their securities, and consequently, the value of such securities may fluctuate.

(2) The Fund may invest in certificates of deposit issued against funds deposited in a bank or savings and loan association. Such certificates are for a definite period of time, earn a specified rate of return, and are normally negotiable. If such certificates of deposit are non-negotiable, they will be considered illiquid securities and be subject to the Fund's 15% restriction on investments in illiquid securities. Pursuant to the certificate of deposit, the issuer agrees to pay the amount deposited plus interest to the bearer of the certificate on the date specified thereon. Under current FDIC regulations, the maximum insurance payable as to any one certificate of deposit is \$250,000; therefore, certificates of deposit purchased by the Fund may not be fully insured. The Fund may only invest in certificates of deposit issued by U.S. banks with at least \$1 billion in assets.

(3) The Fund may invest in bankers' acceptances, which are short-term credit instruments used to finance commercial transactions. Generally, an acceptance is a time draft drawn on a bank by an exporter or an importer to obtain a stated amount of funds to pay for specific merchandise. The draft is then "accepted" by a bank that, in effect, unconditionally guarantees to pay the face value of the instrument on its maturity date. The acceptance may then be held by the accepting bank as an asset or it may be sold in the secondary market at the going rate of interest for a specific maturity.

(4) The Fund may invest in repurchase agreements, which involve purchases of debt securities with counterparties that are deemed by the Adviser to present acceptable credit risks. In such an action, at the time the Fund purchases the security, it simultaneously agrees to resell and redeliver the security to the seller, who also simultaneously agrees to buy back the security at a fixed price and time. This assures a predetermined yield for the Fund during its holding period since the resale price is always greater than the purchase price and reflects an agreed-upon market rate. Such actions afford an opportunity for the Fund to invest temporarily available cash. The Fund may enter into repurchase agreements only with respect to obligations of the U.S. government, its agencies or instrumentalities; certificates of deposit; or bankers' acceptances in which the Fund may invest. Repurchase agreements may be considered loans to the seller, collateralized by the underlying securities. The risk to the Fund is limited to the ability of the seller to pay the agreed-upon sum on the repurchase date; in the event of default, the repurchase agreement provides that the Fund is entitled to sell the underlying collateral. If the value of the collateral declines after the agreement is entered into, however, and if the seller defaults under a repurchase agreement when the value of the underlying collateral is less than the repurchase price, the Fund could incur a loss of both principal and interest. The portfolio managers monitor the value of the collateral at the time the action is entered into and at all times during the term of the repurchase agreement. The portfolio managers do so in an effort to determine that the value of the collateral always equals or exceeds the agreed-upon repurchase price to be paid to the Fund. If the seller were to be subject to a federal bankruptcy proceeding, the ability of the Fund to liquidate the collateral could be delayed or impaired because of certain provisions of the bankruptcy laws.

(5) The Fund may invest in bank time deposits, which are monies kept on deposit with banks or savings and loan associations for a stated period of time at a fixed rate of interest. There may be penalties for the early withdrawal of such time deposits, in which case the yields of these investments will be reduced.

(6) The Fund may invest in commercial paper, which are short-term unsecured promissory notes, including variable rate master demand notes issued by corporations to finance their current operations. Master demand notes are direct lending arrangements between the Fund and a corporation. There is no secondary market for the notes. However, they are redeemable by the Fund at any time. The portfolio managers will consider the financial condition of the corporation (*e.g.*, earning power, cash flow and other liquidity ratios) and will continuously monitor the corporation's ability to meet all of its financial obligations, because the Fund's liquidity might be impaired if the corporation were unable to pay principal and interest on demand. The Fund may invest in commercial paper only if it has received the highest rating from at least one nationally recognized statistical rating organization or, if unrated, judged by the Adviser or Sub-Adviser to be of comparable quality.

(7) The Fund may invest in shares of money market funds, as consistent with its investment objective and policies. Shares of money market funds are subject to management fees and other expenses of those funds. Therefore, investments in money market funds will cause the Fund to bear proportionately the costs incurred by the money market funds' operations. At the same time, the Fund will continue to pay its own management fees and expenses with respect to all of its assets, including any portion invested in the shares of other investment companies. It is possible for the Fund to lose money by investing in money market funds.

*Illiquid Securities.* The Fund may invest in illiquid securities (*i.e.*, securities that cannot be sold within seven days in the ordinary course of business at approximately the amount at which the Fund values the securities for purposes of determining the Fund's net asset value). For purposes of this restriction, illiquid securities include, but are not limited to, certain restricted securities (securities the disposition of which is restricted under the federal securities laws), securities that may only be resold pursuant to Rule 144A under the 1933 Act but that are deemed to be illiquid; and repurchase agreements with maturities in excess of seven days. However, the Fund will not acquire illiquid securities if, as a result, such securities would comprise more than 15% of the value of the Fund's net assets. The Board of Trustees or its delegate has the ultimate authority to determine, to the extent permissible under the federal securities laws, which securities are liquid or illiquid for purposes of this 15% limitation. The Board of Trustees has delegated to the Adviser the day-to-day determination of the illiquidity of any equity or fixed-income security, although it has retained oversight for such determinations. With respect to Rule 144A securities, the Adviser or Sub-Adviser considers factors such as (i) the nature of the market for a security (including the institutional private resale market, the frequency of trades and quotes for the security, the number of dealers willing to purchase or sell the security, the amount of time normally needed to dispose of the security, the method of soliciting offers and the mechanics of transfer); (ii) the terms of certain securities or other instruments allowing for the disposition to a third party or the issuer thereof (*e.g.*, certain repurchase obligations and demand instruments); and (iii) other permissible relevant factors.

Restricted securities may be sold only in privately negotiated transactions or in a public offering with respect to which a registration statement is in effect under the 1933 Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expenses and a considerable period may elapse between the time of the decision to sell and the time the Fund may be permitted to sell a security under an effective registration statement. If, during such a period, adverse market conditions were to develop, the Fund might obtain a less favorable price than that which prevailed when it decided to sell. Illiquid securities will be priced at fair value as determined in good faith under procedures adopted by the Board of Trustees. If, through the appreciation of illiquid securities or the depreciation of liquid securities, the Fund should be in a position where more than 15% of the value of its net assets are invested in illiquid securities, including restricted securities which are not readily marketable, the Fund will take such steps as is deemed advisable, if any, to protect liquidity.

#### PORTFOLIO TURNOVER

The Fund buys and sells portfolio securities in the normal course of its investment activities. The proportion of the Fund's investment portfolio that is bought and sold during a year is known as the Fund's portfolio turnover rate. A turnover rate of 100% would occur, for example, if the Fund bought and sold securities valued at 100% of its net assets within one year. A high portfolio turnover rate could result in the payment by the Fund of increased brokerage costs, expenses and taxes.

#### INVESTMENT RISKS

The following risk disclosure supplements the discussion of the Fund's investment risks that appears in the Prospectus.

##### *Overview*

An investment in the Fund should be made with an understanding of the risks that an investment in the Fund shares entails, including the risk that the financial condition of the issuers of the equity securities or the general condition of the securities market may worsen and the value of the securities and therefore the value of the Fund may decline. The Fund may not be an appropriate investment for those who are unable or unwilling to assume the risks involved generally with such an investment. The past market and earnings performance of any of the securities included in the Fund is not predictive of their future performance.

### *Borrowing and Leverage Risk*

When the Fund borrows money, it must pay interest and other fees, which will reduce the Fund's returns if such costs exceed the returns on the portfolio securities purchased or retained with such borrowings. Any such borrowings are intended to be temporary. However, under certain market conditions, including periods of low demand or decreased liquidity, such borrowings might be outstanding for longer periods of time. As prescribed by the 1940 Act, the Fund will be required to maintain specified asset coverage of at least 300% with respect to any bank borrowing immediately following such borrowing. The Fund may be required to dispose of assets on unfavorable terms if market fluctuations or other factors reduce the Fund's asset coverage to less than the prescribed amount.

### *Deferred Tax Risk*

As a limited partner in the MLPs in which it may invest, the Fund will be allocated its pro rata share of income, gains, losses, deductions and expenses from the MLPs. A significant portion of MLP income has historically been offset by tax deductions. The Fund will recognize income with respect to that portion of a distribution that is not offset by tax deductions, with the remaining portion of the distribution being treated as a tax-deferred return of capital. The percentage of an MLP's distribution which is offset by tax deductions will fluctuate over time for various reasons. A significant slowdown in acquisition or investment activity by MLPs held in the Fund's portfolio could result in a reduction of accelerated depreciation or other deductions generated by these activities, which may result in increased net income to the Fund. A reduction in the percentage of the income from an MLP offset by tax deductions or gains as a result of the sale of portfolio securities will reduce that portion, if any, of the Fund's distribution treated as a tax-deferred return of capital and increase that portion treated as dividend income, resulting in lower after-tax distributions to the Fund's shareholders. The Fund will rely to some extent on information provided by MLPs, which is usually not timely, to determine the tax character of the distributions to shareholders.

### *Derivatives Risk*

The use of derivatives presents risks different from, and possibly greater than, the risks associated with investing directly in traditional securities. The use of derivatives can lead to losses because of adverse movements in the price or value of the underlying asset, index or rate, which may be magnified by certain features of the derivatives. In addition, when the Fund invests in certain derivative securities, the Fund is effectively leveraging its investments, which could result in exaggerated changes in the net asset value of the Fund's shares and can result in losses that exceed the amount originally invested. The success of the Fund's hedging strategy will depend on the ability of the Sub-Adviser to assess and predict the impact of market or economic developments on the underlying asset, index or rate and the derivative itself, without the benefit of observing the performance of the derivative under all possible market conditions. Liquidity risk exists when a security cannot be purchased or sold at the time desired, or cannot be purchased or sold without adversely affecting the price. Certain specific risks associated with an investment in derivatives may include: market risk, credit risk, correlation risk, liquidity risk, legal risk and systemic or "interconnection" risk, as specified below.

(1) *Market Risk.* Market risk is the risk that the value of the underlying assets may go up or down. Adverse movements in the value of an underlying asset can expose the Fund to losses. Derivative instruments may include elements of leverage and, accordingly, fluctuations in the value of the derivative instrument in relation to the underlying asset may be magnified. The successful use of derivative instruments depends upon a variety of factors, particularly the Advisor's ability to predict movements of the securities, currencies and commodities markets, which may require different skills than predicting changes in the prices of individual securities. There can be no assurance that any particular strategy adopted will succeed. A decision to engage in a derivative transaction will reflect the Adviser's judgment that the derivative transaction will provide value to the Fund and its shareholders and is consistent with the Fund's objective, investment limitations, and operating policies. In making such a judgment, the Adviser will analyze the benefits and risks of the derivative transactions and weigh them in the context of the Fund's overall investments and investment objective.

(2) *Credit Risk/Counterparty Risk.* Credit risk is the risk that a loss may be sustained as a result of the failure of a counterparty to comply with the terms of a derivative instrument. The counterparty risk for exchange-traded derivatives is generally less than for privately-negotiated or OTC derivatives, since generally a clearing agency, which is the issuer or counterparty to each exchange-traded instrument, provides a guarantee of performance. For privately-negotiated instruments, there is no similar clearing agency guarantee. In all transactions, the Fund will bear the risk that the counterparty will default, and this could result in a loss of the expected benefit of the derivative transactions and possibly other losses to the Fund. The Fund will enter into transactions in derivative instruments only with counterparties that the Sub-Adviser reasonably believes are capable of performing under the contract.

(3) *Correlation Risk.* Correlation risk is the risk that there might be an imperfect correlation, or even no correlation, between price movements of a derivative instrument and price movements of investments being hedged. When a derivative transaction is used to completely hedge another position, changes in the market value of the combined position (the derivative instrument plus the position being hedged) result from an imperfect correlation between the price movements of the two instruments. With a perfect hedge, the value of the combined position remains unchanged with any change in the price of the underlying asset. With an imperfect hedge, the value of the derivative instrument and its hedge are not perfectly correlated. For example, if the value of a derivative instrument used in a short hedge (such as writing a call option, buying a put option or selling a futures contract) increased by less than the decline in value of the hedged investments, the hedge would not be perfectly correlated. This might occur due to factors unrelated to the value of the investments being hedged, such as speculative or other pressures on the markets in which these instruments are traded. The effectiveness of hedges using instruments on indices will depend, in part, on the degree of correlation between price movements in the index and the price movements in the investments being hedged.

(4) *Liquidity Risk.* Liquidity risk is the risk that a derivative instrument cannot be sold, closed out or replaced quickly at or very close to its fundamental value. Generally, exchange contracts are very liquid because the exchange clearinghouse is the counterparty of every contract. OTC transactions are less liquid than exchange-traded derivatives since they often can only be closed out with the other party to the transaction. The Fund might be required by applicable regulatory requirements to maintain assets as “cover,” maintain segregated accounts, and/or make margin payments when it takes positions in derivative instruments involving obligations to third parties (*i.e.*, instruments other than purchase options). If the Fund is unable to close out its positions in such instruments, it might be required to continue to maintain such assets or accounts or make such payments until the position expires, matures or is closed out. These requirements might impair the Fund’s ability to sell a security or make an investment at a time when it would otherwise be favorable to do so, or require that the Fund sell a portfolio security at a disadvantageous time. The Fund’s ability to sell or close out a position in an instrument prior to expiration or maturity depends upon the existence of a liquid secondary market or, in the absence of such a market, the ability and willingness of the counterparty to enter into a transaction closing out the position. Due to liquidity risk, there is no assurance that any derivatives position can be sold or closed out at a time and price that is favorable to the Fund.

(5) *Legal Risk.* Legal risk is the risk of loss caused by the unenforceability of a party’s obligations under the derivative. While a party seeking price certainty agrees to surrender the potential upside in exchange for downside protection, the party taking the risk is looking for a positive payoff. Despite this voluntary assumption of risk, a counterparty that has lost money in a derivative transaction may try to avoid payment by exploiting various legal uncertainties about certain derivative products.

(6) *Systemic or “Interconnection” Risk.* Systemic or “interconnection” risk is the risk that a disruption in the financial markets will cause difficulties for all market participants. In other words, a disruption in one market will spill over into other markets, perhaps creating a chain reaction. Much of the OTC derivatives market takes place among the OTC dealers themselves, thus creating a large interconnected web of financial obligations. This interconnectedness raises the possibility that a default by one large dealer could create losses for other dealers and destabilize the entire market for OTC derivative instruments.

#### *Equity Securities Risk*

The Fund invests in equity securities of MLPs. The value of the Fund’s shares will fluctuate with changes in the value of these equity securities. Equity securities prices fluctuate for several reasons, including changes in investors’ perceptions of the financial condition of an issuer or the general condition of the relevant stock market, such as the current market volatility, or when political or economic events affecting the issuers occur.

### *Failure to Qualify as a Regulated Investment Company Risk*

If, in any year, the Fund fails to qualify as a regulated investment company under the applicable tax laws, the Fund would be taxed as an ordinary corporation. In such circumstances, the Fund could be required to recognize unrealized gains, pay substantial taxes and interest and make substantial distributions before requalifying as a regulated investment company that is accorded special tax treatment. If the Fund fails to qualify as a regulated investment company, distributions to the Fund's shareholders generally would be eligible for the dividends received deduction in the case of corporate shareholders.

### *Master Limited Partnerships*

An investment in MLP units involves risks which differ from an investment in common stock of a corporation. Holders of MLP units have limited control and voting rights on matters affecting the partnership. In addition, there are certain tax risks associated with an investment in MLP units and conflicts of interest may exist between common unit holders and the general partner, including those arising from incentive distribution payments. In addition, there is the risk that a MLP could be, contrary to its intention, taxed as a corporation, resulting in decreased returns from such MLP.

### *Tax Law Change Risk*

Changes in tax laws or regulations, or interpretations thereof in the future, could adversely affect the Fund or the assets in which it invests. Any such changes could negatively impact the Fund and its shareholders.

## **MANAGEMENT OF THE FUND**

### **TRUSTEES AND OFFICERS**

The general supervision of the duties performed for the Fund under the investment management agreement is the responsibility of the Board of Trustees. There are five Trustees of the Trust, two of whom are "interested persons" (as the term is defined in the 1940 Act) ("*Interested Trustees*") and three of whom are Trustees who are not officers or employees of Amplify Investments or any of its affiliates ("*Independent Trustees*"). The Trust has not established a lead independent Trustee position. The Trustees set broad policies for the Fund, choose the Trust's officers and hire the Trust's investment adviser. The officers of the Trust manage its day-to-day operations and are responsible to the Trust's Board of Trustees. The following is a list of the Trustees and executive officers of the Trust and a statement of their present positions and principal occupations during the past five years, the number of portfolios each Trustee oversees and the other directorships they have held during the past five years, if applicable. Each Trustee has been elected for an indefinite term. The officers of the Trust serve indefinite terms. Each Trustee, except for Christian Magoon and John Phillips, is an Independent Trustee. Mr. Magoon is deemed an Interested Trustee of the Trust due to his positions as Chief Executive Officer and President of Amplify Investments and the Trust. Mr. Phillips is deemed an Interested Trustee due to his positions as Chief Operating Officer of Amplify Investments and Secretary of the Trust.

- (1) Mr. Magoon is deemed an “interested person” of the Trust due to his position as Chief Executive Officer and President of Amplify Investments and the Trust.
- (2) Mr. Phillips is deemed an “interested person” of the Trust due to his positions as Chief Operating Officer of Amplify Investments and Secretary of the Trust.

#### UNITARY BOARD LEADERSHIP STRUCTURE

It is anticipated that each Trustee will serve as a trustee of all funds in the Amplify Investments Fund Complex (as defined below), which is known as a “unitary” board leadership structure. Each Trustee currently serves as a trustee of the Fund and is anticipated to serve as a trustee for future Funds advised by Amplify Investments (each, an “*Amplify Fund*” and collectively, the “*Amplify Investments Fund Complex*”). None of the Trustees who are not “interested persons” of the Trust, nor any of their immediate family members, have ever been a director, officer or employee of, or consultant to, Amplify Investments or any of its affiliates. Mr. Magoon, an Interested Trustee, serves as the Chair of the Board for each Fund in the Amplify Investments Fund Complex.

The same five persons serve as Trustees on the Trust’s Board and are anticipated to serve on the Boards of all other Amplify Funds. The unitary board structure was adopted for the Amplify Funds because of the efficiencies it achieves with respect to the governance and oversight of the Amplify Funds. Each Amplify Fund is subject to the rules and regulations of the 1940 Act (and other applicable securities laws), which means that many of the Amplify Funds face similar issues with respect to certain of their fundamental activities, including risk management, portfolio liquidity, portfolio valuation and financial reporting. Because of the similar and often overlapping issues facing the Amplify Funds, including among any such exchange-traded funds, the Board of the Amplify Funds believes that maintaining a unitary board structure promotes efficiency and consistency in the governance and oversight of all Amplify Funds and reduces the costs, administrative burdens and possible conflicts that may result from having multiple boards. In adopting a unitary board structure, the Trustees seek to provide effective governance through establishing a board the overall composition of which, as a body, possesses the appropriate skills, diversity, independence and experience to oversee the Fund’s business.

Annually, the Board of Trustees will review its governance structure and the committee structures, its performance and functions and any processes that would enhance board governance over the business of the Amplify Funds. The Board of Trustees has determined that its leadership structure, including the unitary board and committee structure, is appropriate based on the characteristics of the funds it serves and the characteristics of the Amplify Investments Fund Complex as a whole.

The Board of Trustees has established two standing committees (as described below) and has delegated certain of its responsibilities to those committees. The Board of Trustees and its committees meet frequently throughout the year to oversee the activities of the Fund, review contractual arrangements with and the performance of service providers, oversee compliance with regulatory requirements and review Fund performance. The Independent Trustees are represented by independent legal counsel at all Board and committee meetings. Generally, the Board of Trustees acts by majority vote of the Trustees present at a meeting, assuming a quorum is present, unless otherwise required by applicable law.

The two standing committees of the Board of Trustees are the Nominating and Governance Committee and the Audit Committee.

The Nominating and Governance Committee is responsible for appointing and nominating non-interested persons to the Board of Trustees. Messrs. DiSanto, Powers and Tucker are members of the Nominating and Governance Committee. If there is no vacancy on the Board of Trustees, the Board of Trustees will not actively seek recommendations from other parties, including shareholders. The Nominating and Governance Committee will not consider new trustee candidates who are 70 years of age or older or will turn 70 years old during the initial term. When a vacancy on the Board of Trustees occurs and nominations are sought to fill such vacancy, the Nominating and Governance Committee may seek nominations from those sources it deems appropriate in its discretion, including shareholders of the Fund. To submit a recommendation for nomination as a candidate for a position on the Board of Trustees, shareholders of the Fund should mail such recommendation to John Phillips, Secretary, at the Trust's address, 310 South Hale Street, Wheaton, Illinois 60187. Such recommendation shall include the following information: (i) a statement in writing setting forth (A) the name, age, date of birth, business address, residence address and nationality of the person or persons to be nominated; (B) the class or series and number of all shares of the Fund owned of record or beneficially by each such person or persons, as reported to such shareholder by such nominee(s); (C) any other information regarding each such person required by paragraphs (a), (d), (e) and (f) of Item 401 of Regulation S-K or paragraph (b) of Item 22 of Rule 14a-101 (Schedule 14A) under the 1934 Act; (D) any other information regarding the person or persons to be nominated that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitation of proxies for election of trustees or directors pursuant to Section 14 of the 1934 Act and the rules and regulations promulgated thereunder; and (E) whether such shareholder believes any nominee is or will be an "interested person" of the Fund (as defined in the 1940 Act) and, if not an "interested person," information regarding each nominee that will be sufficient for the Fund to make such determination; and (ii) the written and signed consent of any person to be nominated to be named as a nominee and to serve as a trustee if elected. In addition, the Trustees may require any proposed nominee to furnish such other information as they may reasonably require or deem necessary to determine the eligibility of such proposed nominee to serve as a Trustee.

The Audit Committee is responsible for overseeing the Fund's accounting and financial reporting process, the system of internal controls and audit process and for evaluating and appointing independent auditors (subject also to approval of the Board of Trustees). Messrs. DiSanto, Powers and Tucker serve on the Audit Committee.

#### RISK OVERSIGHT

As part of the general oversight of the Fund, the Board of Trustees is involved in the risk oversight of the Fund. The Board of Trustees has adopted and periodically reviews policies and procedures designed to address the Fund's risks. Oversight of investment and compliance risk, including, if applicable, oversight of any sub-adviser (each, a "*Sub-Adviser*"), is performed primarily at the Board level in conjunction with the Adviser's investment oversight group and the Trust's Chief Compliance Officer ("*CCO*").

Ed Keiley of Trader Compliance, Inc. (“*Trader Compliance*”) serves as CCO of the Trust. In a joint effort between the Trust and Trader Compliance to ensure the Trust complies with Rule 38a-1 under the 1940 Act, Trader Compliance has agreed to render services to the Trust by entering into a Chief Compliance Officer Services Agreement (the “*CCO Services Agreement*”) with the Trust. Pursuant to the CCO Services Agreement, Trader Compliance designates, subject to the Trust’s approval, one of its own employees to serve as CCO of the Trust within the meaning of Rule 38a-1. Mr. Keiley currently serves in such capacity under the terms of the CCO Services Agreement.

Oversight of other risks also occurs at the committee level. The Adviser’s investment oversight group reports to the Board of Trustees at quarterly meetings regarding, among other things, Fund performance and the various drivers of such performance as well as information related to the Adviser and its operations and processes. The Board of Trustees reviews reports on the Fund’s and the service providers’ compliance policies and procedures at each quarterly Board meeting and receives an annual report from the CCO regarding the operations of the Fund’s and the service providers’ compliance programs. In addition, the Independent Trustees meet privately each quarter with the CCO. The Audit Committee reviews with the Adviser the Fund’s major financial risk exposures and the steps the Adviser has taken to monitor and control these exposures, including the Fund’s risk assessment and risk management policies and guidelines. The Audit Committee also, as appropriate, reviews in a general manner the processes other Board committees have in place with respect to risk assessment and risk management. The Nominating and Governance Committee monitors all matters related to the corporate governance of the Trust.

Not all risks that may affect the Fund can be identified nor can controls be developed to eliminate or mitigate their occurrence or effects. It may not be practical or cost effective to eliminate or mitigate certain risks, the processes and controls employed to address certain risks may be limited in their effectiveness, and some risks are simply beyond the reasonable control of the Fund or the Adviser or other service providers. Moreover, it is necessary to bear certain risks (such as investment-related risks) to achieve the Fund’s goals. As a result of the foregoing and other factors, the Fund’s ability to manage risk is subject to substantial limitations.

#### BOARD DIVERSIFICATION AND TRUSTEE QUALIFICATIONS

As described above, the Nominating and Governance Committee of the Board of Trustees oversees matters related to the nomination of Trustees. The Nominating and Governance Committee seeks to establish an effective Board with an appropriate range of skills and diversity, including, as appropriate, differences in background, professional experience, education, vocations, and other individual characteristics and traits in the aggregate. Each Trustee must meet certain basic requirements, including relevant skills and experience, time availability and, if qualifying as an Independent Trustee, independence from the Adviser, the Sub-Adviser, underwriters or other service providers, including any affiliates of these entities.

Listed below for each current Trustee are the experiences, qualifications and attributes that led to the conclusion, as of the date of this SAI, that each current Trustee should serve as a Trustee in light of the Trust's business and structure.

*Independent Trustees.* Michael DiSanto has served as an attorney with the City of Naperville, Illinois since 2007. In this capacity, Mr. DiSanto oversees municipal matters for the city. Since 2013, Mr. DiSanto has served on the Elder Board of the Compass Church. Additionally, in 2012, Mr. DiSanto held the position of adjunct professor at Aurora University in Aurora, Illinois. Mr. DiSanto has served as a Trustee of the Amplify Funds since 2015. He currently serves as Chair of the Nominating and Governance Committee (since 2015) of the Amplify Funds.

Rick Powers is Deputy Commissioner, Transportation with the State of Indiana, a position he has held since 2014. Previously, from 2001 to 2014, Mr. Powers served as Director, Code Enforcement with the City of Indianapolis, Indiana. Mr. Powers has served as a Trustee of the Amplify Funds since 2015.

Mark Tucker is the sole member of Aspen Equity Partners, LLC, a company he founded in 2009 to serve as the managing member of several single-purpose limited liability companies that own and operate mobile home communities in Illinois, Wisconsin and Minnesota. In 2015, Mr. Tucker founded New Liberty Popcorn, LLC. Mr. Tucker has served as a Trustee of the Amplify Funds since 2015. He currently serves as Chair of the Audit Committee (since 2015) of the Amplify Funds.

*Interested Trustees.* Christian Magoon is Chair of the Board of Trustees of the Amplify Funds and Chief Executive Officer and President of Amplify Investments. Mr. Magoon has served as Chief Executive Officer of Magoon Capital and YieldShares, LLC, which he participated in founding in 2010 and 2013, respectively. Mr. Magoon has served as a Trustee of the Amplify Funds since 2015.

John Phillips has worked as the Chief Operating Officer and Head of Product Development of Amplify Investments since March 2015. Previously, Mr. Phillips was the Managing Director responsible for the Product Development Group at White, Weld & Co., LLC since 2007 and prior to that served as a Managing Director at Guggenheim Partners LLC. Mr. Phillips has worked in the financial services industry since 1990.

Each Independent Trustee is paid a fixed annual retainer of \$15,000 per year. The fixed annual retainer is allocated pro rata among each Fund in the Amplify Investments Fund Complex based on net assets. Trustees are also reimbursed by the investment companies in the Amplify Investments Fund Complex for travel and out-of-pocket expenses incurred in connection with all meetings.

The following table sets forth the estimated compensation (including reimbursement for travel and out-of-pocket expenses) to be paid by the Fund and by the Amplify Investments Fund Complex for one fiscal year. The Trust has no retirement or pension plans. The officers and Trustees who are “interested persons” as designated above serve without any compensation from the Trust. The Trust has no employees. Its officers are compensated by Amplify Investments.

NAME OF TRUSTEE	ESTIMATED COMPENSATION FROM THE FUND <sup>(1)</sup>	ESTIMATED TOTAL COMPENSATION FROM THE AMPLIFY INVESTMENTS FUND COMPLEX <sup>(2)</sup>
Michael DiSanto	\$3,750	\$15,000
Rick Powers	\$3,750	\$15,000
Mark Tucker	\$3,750	\$15,000

- (1) The estimated compensation to be paid by the Fund to the Independent Trustees for one fiscal year for services to the Fund.  
(2) The estimated total compensation paid to the Independent Trustees for one fiscal year for services to all Funds advised by Amplify Investments.

The following table sets forth the dollar range of equity securities beneficially owned by the Trustees in the Fund and in other funds overseen by the Trustees in the Amplify Investments Fund Complex as of March 31, 2017:

TRUSTEE	DOLLAR RANGE OF EQUITY SECURITIES IN THE FUND	AGGREGATE DOLLAR RANGE OF EQUITY SECURITIES IN ALL REGISTERED INVESTMENT COMPANIES OVERSEEN BY TRUSTEE IN THE AMPLIFY INVESTMENTS FUND COMPLEX
<i>Interested Trustees</i>		
Christian Magoon	None	\$10,001 - \$50,000
John Phillips	None	None
<i>Independent Trustees</i>		
Michael DiSanto	None	None
Rick Powers	None	None
Mark Tucker	None	None

As of March 31, 2017, the Independent Trustees of the Trust and immediate family members did not own beneficially or of record any class of securities of an investment adviser or principal underwriter of the Fund or any person directly or indirectly controlling, controlled by, or under common control with an investment adviser or principal underwriter of the Fund.

As of March 31, 2017, the officers and Trustees, in the aggregate, owned less than 1% of the shares of the Fund.

*Investment Adviser.* The Board of Trustees of the Trust, including the Independent Trustees, approved an investment management agreement (the “*Investment Management Agreement*”) for the Fund for an initial term ending March 14, 2019. The Board of Trustees determined that the Investment Management Agreement is in the best interests of the Fund in light of the services, expenses and such other matters as the Board of Trustees considered to be relevant in the exercise of its reasonable business judgment.

Pursuant to the Investment Management Agreement between Amplify Investments and the Trust, Amplify Investments will oversee the investment of the Fund's assets and will be responsible for paying all expenses of the Fund, excluding the fee payments under the Investment Management Agreement, interest, taxes, brokerage commissions, acquired fund fees and expenses and other expenses connected with the execution of portfolio transactions, distribution and service fees payable pursuant to a Rule 12b-1 plan, if any, and extraordinary expenses. The Fund has agreed to pay Amplify Investments an annual management fee equal to 0.85% of its average daily net assets.

Amplify Investments, 310 South Hale Street, Wheaton, Illinois 60187, is the investment adviser to the Fund. Amplify Investments is a Delaware limited liability company with a sole member, Amplify Holding Company LLC. Amplify Investments discharges its responsibilities subject to the policies of the Board of Trustees.

Amplify Investments acts as investment adviser for and oversees the investment and reinvestment of the assets of the Fund. Amplify Investments also administers the Trust's business affairs, provides office facilities and equipment and certain clerical, bookkeeping and administrative services, and permits any of its officers or employees to serve without compensation as Trustees or officers of the Trust if elected to such positions.

Under the Investment Management Agreement, Amplify Investments shall not be liable for any loss sustained by reason of the purchase, sale or retention of any security, whether or not such purchase, sale or retention shall have been based upon the investigation and research made by any other individual, firm or corporation, if such recommendation shall have been selected with due care and in good faith, except loss resulting from willful misfeasance, bad faith, or gross negligence on the part of Amplify Investments in the performance of its obligations and duties, or by reason of its reckless disregard of its obligations and duties. The Investment Management Agreement continues until March 14, 2019, and thereafter only if approved annually by the Board of Trustees, including a majority of the Independent Trustees. The Investment Management Agreement terminates automatically upon assignment and is terminable at any time without penalty as to the Fund by the Board of Trustees, including a majority of the Independent Trustees, or by vote of the holders of a majority of the Fund's outstanding voting securities on 60 days' written notice to Amplify Investments, or by Amplify Investments on 60 days' written notice to the Fund.

*Sub-Adviser.* The Adviser has retained Penserra Capital Management LLC ("*Penserra*" or the "*Sub-Adviser*"), a New York limited liability company, located at 4 Orinda Way, Suite 100-A, Orinda, California 94563, to act as sub-adviser to the Fund. The Sub-Adviser is controlled by George Madrigal, the Managing Partner of the Sub-Adviser and Dustin Lewellyn, Managing Director of the Sub-Adviser, who together own a majority interest in the Sub-Adviser. The Sub-Adviser's affiliated broker-dealer, Penserra Securities LLC ("*Penserra Securities*"), also holds a minority interest in the Sub-Adviser. The Sub-Adviser has overall responsibility for selecting and continuously monitoring the Fund's investments.

Dustin Lewellyn, CFA, Chief Investment Officer of the Sub-Adviser, has primary responsibility for the day-to-day management of the Fund. Ernesto Tong, CFA and Anand Desai, each a portfolio manager of the Sub-Adviser, serve as portfolio managers of the Fund and assist with the day-to-day management of the Fund. Messrs. Lewellyn, Tong and Desai (each, a “*Portfolio Manager*”) have managed the Fund since inception.

Dustin Lewellyn, CFA. Mr. Lewellyn has extensive background in institutional investment process with a specific focus on exchange-traded funds (“*ETFs*”), such as the Fund. Mr. Lewellyn was a portfolio manager at BGI (now part of Blackrock), and he managed a number of international equity funds. Dustin also was head of ETF product management and product development at Northern Trust where he oversaw the build out and management of all areas of a new ETF business, including primary responsibility for the portfolio management process surrounding the ETFs. Mr. Lewellyn also built and ran a new ETF business for Charles Schwab, including having primary responsibility for the technology and investment process to support portfolio management for the ETFs. Mr. Lewellyn started a consulting business with a focus on ETFs and helped numerous new ETF sponsors, as well as service providers, understand the resource requirements to participate in the industry utilizing current best practices. Mr. Lewellyn holds a B.A. from University of Iowa and is a CFA Charterholder. He also holds security licenses 7, 63, 66 and 24.

Ernesto Tong, CFA. Mr. Tong worked for Barclays Global Investors and Blackrock prior to joining Penserra. During his time at Blackrock, Mr. Tong spent two years as an Index Research Analyst and seven years as a portfolio manager for a number of funds. As an Index Research Analyst, he was responsible for performing independent research and analysis to incorporate into Portfolio Management and Trading strategies and also developing and launching new indices and investment products, particularly in Latin America. As a portfolio manager, Ernesto managed \$40 billion in global ETF assets and was responsible for all aspects of portfolio management across domestic and international portfolios. Ernesto was also responsible for launching, managing, and driving the local Latin American ETF products for the portfolio management group, focusing on Brazil, Colombia and Mexico. Ernesto holds a B.A. from the University of California, Davis and is a CFA Charterholder. He holds security licenses 7 and 63.

Anand Desai. Prior to joining Penserra in 2015, Mr. Desai was an officer at State Street, where he had roles in portfolio accounting and client operations.

*Compensation.* The Portfolio Managers’ compensation includes a salary and discretionary bonus based on the profitability of the Sub-Adviser. No compensation is directly related to the performance of the underlying assets.

**ACCOUNTS MANAGED BY THE PORTFOLIO MANAGERS**

In addition to the Fund, Messrs. Lewellyn, Tong and Desai are responsible for the day-to-day management of certain other accounts, as listed below. The information below is provided as of April 1, 2017.

PORTFOLIO MANAGERS	REGISTERED INVESTMENT COMPANIES	OTHER POOLED INVESTMENT	
	NUMBER OF ACCOUNTS (\$ ASSETS)	VEHICLES NUMBER OF ACCOUNTS (\$ ASSETS)	OTHER ACCOUNTS NUMBER OF ACCOUNTS (\$ ASSETS)
Dustin Lewellyn	8 (\$200 million)	-- (\$--)	-- (\$--)
Ernesto Tong	8 (\$200 million)	-- (\$--)	-- (\$--)
Anand Desai	8 (\$200 million)	-- (\$--)	-- (\$--)

*Conflicts.* None of the accounts managed by the Portfolio Managers pays an advisory fee that is based upon the performance of the account. In addition, Amplify Investments believes that there are no material conflicts of interest that may arise in connection with the Portfolio Managers' management of the Fund's investments and the investments of the other accounts managed by the Portfolio Managers.

In addition, the Adviser may make payments out of its own internal resources and profits from all sources to other financial intermediaries to encourage the sale of Shares of the Fund. The payments are intended to compensate financial intermediaries (including broker-dealers) for, among other things: marketing Shares, which may consist of payments relating to the Fund, including but not limited to: inclusion on preferred or recommended fund lists or in certain sales programs from time to time sponsored by the financial intermediaries; access to the financial intermediaries registered sales persons; and/or other specified services or persons intended to assist in the marketing of the Fund. Such payments may be based on various factors, including levels of assets and/or sales (based on gross or net sales or some other criteria). These payments may create an incentive for a financial intermediary to sell and recommend certain investment products, including the Fund, over other products for which it may receive less compensation. You may contact your financial intermediary if you want information regarding the any payment it receives from the Adviser.

**BROKERAGE ALLOCATIONS**

The Sub-Adviser is responsible for decisions to buy and sell securities for the Fund and for the placement of the Fund's securities business, the negotiation of the commissions to be paid on brokered transactions, the prices for principal trades in securities, and the allocation of portfolio brokerage and principal business. It is the policy of Amplify Investments to seek the best execution at the best security price available with respect to each transaction, and with respect to brokered transactions in light of the overall quality of brokerage and research services provided to Amplify Investments and its clients. The best price to the Fund means the best net price without regard to the mix between purchase or sale price and commission, if any. Purchases may be made from underwriters, dealers, and, on occasion, the issuers. Commissions will be paid on the Fund's Futures transactions, if any. The purchase price of portfolio securities purchased from an underwriter or dealer may include underwriting commissions and dealer spreads. The Fund may pay mark-ups on principal transactions. In selecting broker/dealers and in negotiating commissions, Amplify Investments considers, among other things, the firm's reliability, the quality of its execution services on a continuing basis and its financial condition.

Section 28(e) of the 1934 Act permits an investment adviser, under certain circumstances, to cause an account to pay a broker or dealer who supplies brokerage and research services a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction. Brokerage and research services include (i) furnishing advice as to the value of securities, the advisability of investing, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (ii) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and the performance of accounts; and (iii) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement, and custody). Such brokerage and research services are often referred to as “soft dollars.” Amplify Investments has advised the Board of Trustees that it does not currently intend to use soft dollars.

Notwithstanding the foregoing, in selecting brokers, Amplify Investments may in the future consider investment and market information and other research, such as economic, securities and performance measurement research, provided by such brokers, and the quality and reliability of brokerage services, including execution capability, performance, and financial responsibility. Accordingly, the commissions charged by any such broker may be greater than the amount another firm might charge if Amplify Investments determines in good faith that the amount of such commissions is reasonable in relation to the value of the research information and brokerage services provided by such broker to Amplify Investments or the Trust. In addition, Amplify Investments must determine that the research information received in this manner provides the Fund with benefits by supplementing the research otherwise available to the Fund. The Investment Management Agreement provides that such higher commissions will not be paid by the Fund unless the Adviser determines in good faith that the amount is reasonable in relation to the services provided. The investment advisory fees paid by the Fund to Amplify Investments under the Investment Management Agreement would not be reduced as a result of receipt by Amplify Investments of research services.

Amplify Investments places portfolio transactions for other advisory accounts advised by it, and research services furnished by firms through which the Fund effects securities transactions may be used by Amplify Investments in servicing all of its accounts; not all of such services may be used by Amplify Investments in connection with the Fund. Amplify Investments believes it is not possible to measure separately the benefits from research services to each of the accounts (including the Fund) advised by it. Because the volume and nature of the trading activities of the accounts are not uniform, the amount of commissions in excess of those charged by another broker paid by each account for brokerage and research services will vary. However, Amplify Investments believes such costs to the Fund will not be disproportionate to the benefits received by the Fund on a continuing basis. Amplify Investments seeks to allocate portfolio transactions equitably whenever concurrent decisions are made to purchase or sell securities by the Fund and another advisory account. In some cases, this procedure could have an adverse effect on the price or the amount of securities available to the Fund. In making such allocations between the Fund and other advisory accounts, the main factors considered by Amplify Investments are the respective investment objectives, the relative size of portfolio holding of the same or comparable securities, the availability of cash for investment and the size of investment commitments generally held.

*Administrator.* U.S. Bancorp Fund Services, LLC (“U.S. Bancorp”) serves as Administrator for the Fund. Its principal address is 615 East Michigan Street, Milwaukee, Wisconsin 53202.

U.S. Bancorp serves as Administrator for the Trust pursuant to a Fund Administration and Accounting Agreement. Under such agreement, U.S. Bancorp is obligated on a continuous basis, to provide such administrative services as the Board of Trustees reasonably deems necessary for the proper administration of the Trust and the Fund. U.S. Bancorp will generally assist in all aspects of the Trust’s and the Fund’s operations; supply and maintain office facilities (which may be in U.S. Bancorp’s own offices), statistical and research data, data processing services, clerical, accounting, bookkeeping and record keeping services (including, without limitation, the maintenance of such books and records as are required under the 1940 Act and the rules thereunder, except as maintained by other agency agents), internal auditing, executive and administrative services, and stationery and office supplies; prepare reports to shareholders or investors; prepare and file tax returns; supply financial information and supporting data for reports to and filings with the SEC and various state Blue Sky authorities; supply supporting documentation for meetings of the Board of Trustees; and provide monitoring reports and assistance regarding compliance with federal and state securities laws.

Pursuant to the Fund Administration and Accounting Agreement, the Trust on behalf of the Fund has agreed to indemnify the Administrator for certain liabilities, including certain liabilities arising under the federal securities laws, unless such loss or liability results from gross negligence or willful misconduct in the performance of its duties.

Pursuant to the Fund Administration and Accounting Agreement between U.S. Bancorp and the Trust, the Fund has agreed to pay such compensation as is mutually agreed from time to time and such out-of-pocket expenses as incurred by U.S. Bancorp in the performance of its duties.

**CUSTODIAN, TRANSFER AGENT, FUND ACCOUNTING AGENT, DISTRIBUTOR, ETP VENTURES LLC AND EXCHANGE**

*Custodian, Transfer Agent and Accounting Agent.* U.S. Bancorp, as custodian for the Fund pursuant to a Custody Agreement, holds the Fund’s assets. U.S. Bancorp also serves as transfer agent of the Fund pursuant to an Administrative Agency Agreement. As the Fund’s accounting agent, U.S. Bancorp calculates the net asset value of shares and calculates net income and realized capital gains or losses. U.S. Bancorp may be reimbursed by the Fund for its out-of-pocket expenses.

*Distributor.* Quasar Distributors LLC is the distributor (the “*Distributor*”) and principal underwriter of the Creation Unit Aggregations of the Fund. Its principal address is 615 East Michigan Street, Milwaukee, Wisconsin 53202. The Distributor has entered into a Distribution Agreement with the Trust pursuant to which it distributes Fund shares. Shares are continuously offered for sale by the Fund through the Distributor only in Creation Unit Aggregations, as described below under the heading “Creation and Redemption of Creation Unit Aggregations.”

Amplify Investments may, from time to time and from its own resources, pay, defray or absorb costs relating to distribution, including payments out of its own resources to the Distributor, or to otherwise promote the sale of shares. Amplify Investments’ available resources to make these payments include profits from advisory fees received from the Fund. The services Amplify Investments may pay for include, but are not limited to, advertising and attaining access to certain conferences and seminars, as well as being presented with the opportunity to address investors and industry professionals through speeches and written marketing materials.

*12b-1 Plan.* The Trust has adopted a Plan of Distribution pursuant to Rule 12b-1 under the 1940 Act (the “*Plan*”) pursuant to which the Fund may reimburse the Distributor up to a maximum annual rate of 0.25% of its average daily net assets.

Under the Plan and as required by Rule 12b-1, the Trustees will receive and review after the end of each calendar quarter a written report provided by the Distributor of the amounts expended under the Plan and the purpose for which such expenditures were made. With the exception of the Distributor and its affiliates, no “interested person” of the Trust (as that term is defined in the 1940 Act) and no Trustee of the Trust has a direct or indirect financial interest in the operation of the Plan or any related agreement.

No fee is currently paid by the Fund under the plan, and the Fund will not pay 12b-1 fees any time before October 31, 2018.

*Aggregations.* Fund shares in less than Creation Unit Aggregations are not distributed by the Distributor. The Distributor will deliver the Prospectus and, upon request, this SAI to Authorized Participants purchasing Creation Unit Aggregations and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority (“*FINRA*”).

The Distribution Agreement provides that it may be terminated at any time, without the payment of any penalty, on at least 60 days’ written notice by the Trust to the Distributor (i) by vote of a majority of the Independent Trustees; or (ii) by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund. The Distribution Agreement will terminate automatically in the event of its assignment (as defined in the 1940 Act).

The Distributor may also enter into agreements with participants that utilize the facilities of the Depository Trust Company (the “*DTC Participants*”), which have international, operational, capabilities and place orders for Creation Unit Aggregations of Fund shares. Participating Parties (as defined in “Procedures for Creation of Creation Unit Aggregations” below) shall be DTC Participants (as defined in “DTC Acts as Securities Depository for Fund Shares” below).

*ETP Ventures LLC.* ETP Ventures LLC (“*ETP Ventures*”) is not affiliated with the Trust, the Advisers, the Fund’s administrator, custodian, transfer agent or distributor, or any of their respective affiliates. The Oil Hedged MLP Index (the “*Benchmark*”) is a product of ETP Ventures. The Fund is not sponsored, endorsed or promoted by ETP Ventures. ETP Ventures’ only relationship with the Fund is the licensing of certain service marks and services names of ETP Ventures and of the Benchmark.

*Exchange.* The only relationship that the Exchange has with Amplify Investments or the Distributor of the Fund in connection with the Fund is that the Exchange lists the shares of the Fund pursuant to its listing agreement with the Trust. The Exchange is not responsible for and has not participated in the determination of pricing or the timing of the issuance or sale of the shares of the Fund or in the determination or calculation of the asset value of the Fund. The Exchange has no obligation or liability in connection with the administration, marketing or trading of the Fund.

#### ADDITIONAL INFORMATION

*Book Entry Only System.* The following information supplements and should be read in conjunction with the Prospectus.

*DTC Acts as Securities Depository for Fund Shares.* Shares of the Fund are represented by securities registered in the name of The Depository Trust Company (“*DTC*”) or its nominee, Cede & Co., and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants (the “*DTC Participants*”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities, certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the New York Stock Exchange (the “*NYSE*”) and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the “*Indirect Participants*”).

Beneficial ownership of shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in shares (owners of such beneficial interests are referred to herein as “*Beneficial Owners*”) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase and sale of shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to a letter agreement between DTC and the Trust, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participants a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Fund distributions shall be made to DTC or its nominee, as the registered holder of all Fund shares. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a "street name," and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

#### **PROXY VOTING POLICIES AND PROCEDURES**

The Trust has adopted a proxy voting policy that seeks to ensure that proxies for securities held by the Fund are voted consistently with the best interests of the Fund.

The Board has delegated to Amplify Investments the proxy voting responsibilities for the Fund and has directed Amplify Investments to vote proxies consistent with the Fund's best interests. Amplify Investments has adopted the general proxy voting guidelines attached hereto as Exhibit A. While these guidelines are not intended to be all-inclusive, they do provide guidance on Amplify Investments' general voting policies.

*Quarterly Portfolio Schedule.* The Trust is required to disclose, after its first and third fiscal quarters, the complete schedule of the Fund's portfolio holdings with the SEC on Form N-Q. Form N-Q for the Trust is available on the SEC's website at <http://www.sec.gov>. The Fund's Form N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Trust's Forms N-Q are available without charge, upon request, by calling 1-855-267-3837 or by writing to Amplify ETF Trust, 310 South Hale Street, Wheaton, Illinois 60187.

*Policy Regarding Disclosure of Portfolio Holdings.* The Trust has adopted a policy regarding the disclosure of information about the Fund's portfolio holdings. The Board of Trustees must approve all material amendments to this policy. The Fund's portfolio holdings are publicly disseminated each day the Fund is open for business through financial reporting and news services, including publicly accessible Internet websites. In addition, a basket composition file, which includes the security names and share quantities to deliver in exchange for Fund shares, together with estimates and actual cash components, is publicly disseminated each day the NYSE is open for trading via the National Securities Clearing Corporation ("NSCC"). The basket represents one Creation Unit of the Fund. The Fund's portfolio holdings are also available on the Fund's website at <http://www.amplifyetfs.com>. The Trust, Amplify Investments and the Distributor will not disseminate non-public information concerning the Trust.

*Codes of Ethics.* In order to mitigate the possibility that the Fund will be adversely affected by personal trading, the Trust, Amplify Investments, Penserra, and the Distributor have adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These Codes of Ethics contain policies restricting securities trading in personal accounts access persons, Trustees and others who normally come into possession of information on portfolio transactions. Personnel subject to the Codes of Ethics may invest in securities that may be purchased or held by the Fund; however, the Codes of Ethics require that each transaction in such securities be reviewed by the Compliance Department. These Codes of Ethics are on public file with, and are available from, the SEC.

#### **CREATION AND REDEMPTION OF CREATION UNIT AGGREGATIONS**

*General.* The Trust issues and sells shares of the Fund only in Creation Unit Aggregations on a continuous basis through the Distributor, without a sales load, at their net asset values next determined after receipt, on any Business Day (as defined below), of an order in proper form.

A "Business Day" is generally any day on which the NYSE, the Exchange and the Trust are open for business. As of the date of this SAI, the NYSE observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

*Purchase and Issuance of Creation Unit Aggregations.* Unless cash purchases are required or permitted for the Fund under the circumstances described below, the consideration for purchase of a Creation Unit Aggregation of shares of the Fund generally consists of the in-kind deposit of a designated portfolio of securities and other instruments (the “*Deposit Instruments*”) and an amount of cash computed as described below (the “*Cash Component*”). Together, the Deposit Instruments (and/or any cash with respect to cash purchases and cash-in-lieu amounts) and the Cash Component constitute the “*Fund Deposit*,” which represents the minimum initial and subsequent investment amount for a Creation Unit Aggregation of the Fund.

The Cash Component is sometimes also referred to as the Balancing Amount. The Cash Component serves the function of compensating for any differences between the net asset value per Creation Unit Aggregation and the Deposit Amount (as defined below). The Cash Component is an amount equal to the difference between the net asset value of Fund shares (per Creation Unit Aggregation) and the “Deposit Amount”—an amount equal to the aggregate market value of the Deposit Instruments and/or cash in lieu of all or a portion of the Deposit Instruments. If the Cash Component is a positive number (*i.e.*, the net asset value per Creation Unit Aggregation exceeds the Deposit Amount), the creator will deliver the Cash Component. If the Cash Component is a negative number (*i.e.*, the net asset value per Creation Unit Aggregation is less than the Deposit Amount), the creator will receive the Cash Component.

On each Business Day, prior to the opening of business of the Exchange (currently 9:30 a.m., Eastern Time), the list of the names and the required quantity of each Deposit Instrument, as well as the estimated Cash Component (if any) that will be applicable to Fund Deposits for the Fund for that day (subject to correction of any errors), are made available through the NSCC. Such Fund Deposit information is applicable in order to effect creations of Creation Unit Aggregations of the Fund until a new list is announced on the next Business Day.

The Fund reserves the right to require or permit purchases of Creation Unit Aggregations to be made in whole or in part on a cash basis, rather than in-kind, under the following circumstances: (i) to the extent there is a Cash Component; (ii) if, on a given Business Day, the Fund announces before the open of trading that all purchases on that day will be made entirely in cash; (iii) if, upon receiving a purchase order from an Authorized Participant (as defined below), the Fund determines to require the purchase to be made entirely in cash; (iv) if, on a given Business Day, the Fund requires all Authorized Participants purchasing shares on that day to deposit cash in lieu of some or all of the Deposit Instruments because: (a) such instruments are not eligible for transfer through either the NSCC or DTC; or (b) in the case of non-U.S. investments (if any), such instruments are not eligible for trading due to local trading restrictions, local restrictions on securities transfers or other similar circumstances; or (v) if the Fund permits an Authorized Participant to deposit cash in lieu of some or all of the Deposit Instruments because: (a) such instruments are not available in sufficient quantity; or (b) such instruments are not eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting.

In addition, it is possible that Deposit Instruments may not correspond pro rata to the positions in the Fund's portfolio under the following circumstances: (i) in the case of bonds, with respect to minor differences when it is impossible to break up bonds beyond certain minimum sizes needed for transfer and settlement; (ii) with respect to minor differences when rounding is necessary to eliminate fractional shares or lots that are not tradeable round lots (a tradeable round lot for a security will be the standard unit of trading in that particular type of security in its primary market); (iii) with respect to "to-be-announced" transactions, short positions, derivatives, and other positions that cannot be transferred in kind (including instruments that can be transferred in kind only with the consent of the original counterparty to the extent the Fund does not intend to seek such consents), and they will therefore be excluded from the Deposit Instruments with their value reflected in the determination of the Cash Component; (iv) to the extent the Fund determines, on a given Business Day, to use a representative sampling of the Fund's portfolio; or (v) with respect to temporary periods, to effect changes in the Fund's portfolio as a result of the rebalancing of its underlying index, as applicable.

*Procedures for Creation of Creation Unit Aggregations.* All orders to purchase shares of the Fund in Creation Unit Aggregations must be placed with the Distributor by or through an "Authorized Participant" or "AP" which is either: (1) a "Participating Party," i.e., a broker-dealer or other participant in the Continuous Net Settlement System of the NSCC, or (2) a DTC Participant, which, in either case, has signed a "Participant Agreement" with the Distributor. Investors should contact the Distributor for the names of Authorized Participants that have signed a Participant Agreement. All Fund shares, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

All orders to create Creation Unit Aggregations must be received by the transfer agent no later than the closing time of the regular trading session on the NYSE ("*Closing Time*") (ordinarily 4:00 p.m., Eastern Time) in each case on the date such order is placed in order for creation of Creation Unit Aggregations to be effected based on the net asset value of shares of the Fund as next determined on such date after receipt of the order in proper form. In the case of custom orders, the order must be received by the transfer agent no later than 3:00 p.m. Eastern Time. The date on which an order to create Creation Unit Aggregations (or an order to redeem Creation Unit Aggregations, as discussed below) is placed is referred to as the "Transmittal Date." Orders must be transmitted by an AP by telephone or other transmission method acceptable to the transfer agent pursuant to procedures set forth in the Participant Agreement. Severe economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the transfer agent or an AP.

All orders from investors who are not APs to create Creation Unit Aggregations shall be placed with an AP, as applicable, in the form required by such AP. In addition, the AP may request the investor to make certain representations or enter into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to create Creation Unit Aggregations of the Fund have to be placed by the investor's broker through an AP that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement. Those persons placing orders should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of Deposit Instruments and Cash Component.

*Placement of Creation Orders.* In order to purchase Creation Units of a Fund, an AP must submit an order to purchase for one or more Creation Units. All such orders must be received by a Fund's transfer agent in proper form no later than the close of regular trading on the NYSE (ordinarily 4:00 p.m. Eastern Time) in order to receive that day's closing net asset value per share. Orders must be placed in proper form by or through an AP, which is a DTC Participant, *i.e.*, a subcustodian of the Trust. Deposit Instruments must be delivered to the Trust through DTC or NSCC, and Deposit Instruments which are non-U.S. securities must be delivered to an account maintained at the applicable local subcustodian of the Trust on or before the International Contractual Settlement Date, as defined below. If a Deposit Security is an American Depository Receipt ("*ADR*") or similar domestic instrument, it may be delivered to the Custodian.

Deposit Instruments must be delivered to the Fund through the applicable processes set forth in the Participant Agreement. The custodian will monitor the movement of the underlying Deposit Instruments and/or cash and will instruct the movement of shares only upon validation that such instruments and/or cash have settled correctly.

*Issuance of Creation Unit Aggregations.* A Creation Unit Aggregation will generally not be issued until the transfer of good title to the Fund of the Deposit Instruments and the payment of the Cash Component, the Creation Transaction Fee (as defined below) and any other required cash amounts have been completed. To the extent contemplated by the applicable Participant Agreement, Creation Unit Aggregations of the Fund will be issued to such AP notwithstanding the fact that the corresponding Fund Deposits have not been received in part or in whole, in reliance on the undertaking of the AP to deliver the missing Deposit Instruments as soon as possible, which undertaking shall be secured by such AP's delivery and maintenance of collateral consisting of cash in the form of U.S. dollars in immediately available funds having a value (marked to market daily) at least equal to 105% which Amplify Investments may change from time to time of the value of the missing Deposit Instruments. Such cash collateral must be delivered no later than 2:00 p.m., Eastern Time, on the contractual settlement date. The Participant Agreement will permit the Fund to use such collateral to buy the missing Deposit Instruments at any time and will subject the AP to liability for any shortfall between the cost to the Fund of purchasing such securities and the value of the collateral.

*Acceptance of Orders for Creation Unit Aggregations.* The Fund reserves the absolute right to reject a creation order transmitted to it if: (i) the order is not in proper form; (ii) the purchaser or group of related purchasers, upon obtaining the Creation Unit Aggregations of Fund shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (iii) the required Fund Deposit is not delivered; (iv) the acceptance of the Fund Deposit would have certain adverse tax consequences; (v) the acceptance of the Fund Deposit would, in the opinion of the Fund, be unlawful; (vi) the acceptance of the Fund Deposit would otherwise, in the discretion of the Fund, Amplify Investments and/or any sub-advisor, have an adverse effect on the Fund or the rights of the Fund's Beneficial Owners; or (vii) there exist circumstances outside the control of the Fund that make it impossible to process purchases of Creation Units for all practical purposes. Examples of such circumstances include: acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Fund, Amplify Investments, the Distributor, DTC, NSCC, the transfer agent, the custodian, any sub-custodian or any other participant in the purchase process; and similar extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of such prospective creator of the rejection of the order of such person. The Trust, the Fund, the custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits, nor shall any of them incur any liability for the failure to give any such notification.

All questions as to the number of shares of each security in the Deposit Instruments and the validity, form, eligibility, and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust's determination shall be final and binding.

*Creation Transaction Fee.* Purchasers of Creation Units must pay a creation transaction fee (the "*Creation Transaction Fee*") that is currently \$500. The Creation Transaction Fee is applicable to each purchase transaction regardless of the number of Creation Units purchased in the transaction. The Creation Transaction Fee is based on the composition of the securities included in the Fund's portfolio and the countries in which the transactions are settled. The Creation Transaction Fee may increase or decrease as the Fund's portfolio is adjusted to conform to changes in the composition of its underlying index, as applicable. The price for each Creation Unit will equal the daily net asset value per share times the number of shares in a Creation Unit plus the fees described above and, if applicable, any operational processing and brokerage costs, transfer fees or stamp taxes. When the Fund permits an AP to substitute cash in lieu of depositing one or more of the requisite Deposit Instruments, the AP may be assessed a higher amount to cover the cost of purchasing the Deposit Instruments, including operational processing and brokerage costs, transfer fees, stamp taxes, and part or all of the spread between the expected bid and offer side of the market related to such Deposit Instruments.

As discussed above, shares of the Fund may be issued in advance of receipt of all Deposit Instruments subject to various conditions including a requirement to maintain on deposit with the Fund cash at least equal to 105% of the market value of the missing Deposit Instruments.

#### REDEMPTIONS OF CREATION UNIT AGGREGATIONS

*Redemption of Fund Shares in Creation Unit Aggregations.* Beneficial Owners of Fund shares may sell their shares in the secondary market, but must accumulate enough shares to constitute a Creation Unit Aggregation to redeem through the Fund. The Fund will not redeem shares in amounts less than Creation Unit Aggregations and there can be no assurance that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit Aggregation. Investors should expect to incur customary brokerage and other costs in connection with assembling a sufficient number of Fund shares to constitute a redeemable Creation Unit Aggregation. Redemption requests must be placed by or through an Authorized Participant. Creation Unit Aggregations will be redeemable at their net asset value per Creation Unit Aggregation next determined after receipt of a request for redemption by the Fund.

On each Business Day, prior to the opening of business of the Exchange (currently 9:30 a.m., Eastern Time), the list of the names and the required quantity of Deposit Instruments, as well as the estimated Cash Redemption Amount (as defined below) (if any) that will be applicable to redemptions for the Fund for that day (subject to correction of any errors), are made available through the NSCC. Such information is applicable in order to effect redemptions of Creation Unit Aggregations of the Fund until a new list is announced on the next Business Day.

Unless cash redemptions are required or permitted for the Fund under the circumstances described below, the redemption proceeds for a Creation Unit Aggregation generally consist of Deposit Instruments—as announced on the Business Day of the request for redemption received in proper form—plus or minus cash in an amount equal to the difference between the net asset value of the Fund shares (per Creation Unit Aggregation) being redeemed, as next determined after a receipt of a request in proper form, and the aggregate market value of the Deposit Instruments (the “*Cash Redemption Amount*”), less the applicable Redemption Transaction Fee as described below and, if applicable, any operational processing and brokerage costs, transfer fees or stamp taxes. In the event that the Deposit Instruments have an aggregate market value greater than the net asset value of the Fund shares (per Creation Unit Aggregation), a compensating cash payment equal to the difference plus the applicable Redemption Transaction Fee and, if applicable, any operational processing and brokerage costs, transfer fees or stamp taxes, is required to be made by or through an Authorized Participant by the redeeming shareholder.

The Fund reserves the right to require or permit redemptions of Creation Unit Aggregations to be made in whole or in part on a cash basis, rather than in-kind, under the following circumstances: (i) to the extent there is a Cash Redemption Amount; (ii) if, on a given Business Day, the Fund announces before the open of trading that all redemptions on that day will be made entirely in cash; (iii) if, upon receiving a redemption order from an Authorized Participant, the Fund determines to require the redemption to be made entirely in cash; (iv) if, on a given Business Day, the Fund requires all Authorized Participants redeeming shares on that day to receive cash in lieu of some or all of the Deposit Instruments because: (a) such instruments are not eligible for transfer through either the NSCC or DTC; or (b) in the case of non-U.S. investments (if any), such instruments are not eligible for trading due to local trading restrictions, local restrictions on securities transfers or other similar circumstances; or (v) if the Fund permits an Authorized Participant to receive cash in lieu of some or all of the Deposit Instruments because: (a) such instruments are not eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting; or (b) to the extent the Fund holds non-U.S. investments, a holder of shares would be subject to unfavorable income tax treatment if the holder receives redemption proceeds in kind.

In addition, it is possible that Deposit Instruments may not correspond pro rata to the positions in the Fund’s portfolio under the following circumstances: (i) in the case of bonds, with respect to minor differences when it is impossible to break up bonds beyond certain minimum sizes needed for transfer and settlement; (ii) with respect to minor differences when rounding is necessary to eliminate fractional shares or lots that are not tradeable round lots; (iii) with respect to “to-be-announced” transactions, short positions, derivatives and other positions that cannot be transferred in kind (including instruments that can be transferred in kind only with the consent of the original counterparty to the extent the Fund does not intend to seek such consents), and they will therefore be excluded from the Deposit Instruments with their value reflected in the determination of the Cash Redemption Amount; (iv) to the extent the Fund determines, on a given Business Day, to use a representative sampling of the Fund’s portfolio; or (v) with respect to temporary periods, to effect changes in the Fund’s portfolio as a result of the rebalancing of its underlying index, as applicable.

The right of redemption may be suspended or the date of payment postponed (i) for any period during which the NYSE is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on the NYSE is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the shares of the Fund or determination of the Fund's net asset value is not reasonably practicable; or (iv) in such other circumstances as are permitted by the SEC.

*Redemption Transaction Fee.* Parties redeeming Creation Units must pay a redemption transaction fee (the "*Redemption Transaction Fee*") that is currently \$500. The Redemption Transaction Fee is applicable to each redemption transaction regardless of the number of Creation Units redeemed in the transaction. The Redemption Transaction Fee may vary and is based on the composition of the securities included in the Fund's portfolio and the countries in which the transactions are settled. The Redemption Transaction Fee may increase or decrease as the Fund's portfolio is adjusted to conform to changes in the composition of its underlying index, as applicable. Investors will also bear the costs of transferring the Fund Instruments from the Trust to their account or on their order. Investors who use the services of a broker or other such intermediary in addition to an AP to effect a redemption of a Creation Unit Aggregation may be charged an additional fee for such services.

*Placement of Redemption Orders.* Orders to redeem Creation Unit Aggregations must be delivered through an AP that has executed a Participant Agreement. Investors other than APs are responsible for making arrangements for a redemption request to be made through an AP. An order to redeem Creation Unit Aggregations of the Fund is deemed received by the Trust on the Transmittal Date if: (i) such order is received by U.S. Bancorp (in its capacity as transfer agent) not later than the Closing Time on the Transmittal Date; (ii) such order is accompanied or followed by the requisite number of shares of the Fund specified in such order, which delivery must be made through DTC to U.S. Bancorp; and (iii) all other procedures set forth in the Participant Agreement are properly followed.

Deliveries of Fund Securities to investors are generally expected to be made within three Business Days. Due to the schedule of holidays in certain countries, however, the delivery of in-kind redemption proceeds for the Fund may take longer than three Business Days after the day on which the redemption request is received in proper form. In such cases, the local market settlement procedures will not commence until the end of the local holiday periods. Under the 1940 Act, the Fund would generally be required to make payment of redemption proceeds within seven days after a security is tendered for redemption. However, because the settlement of redemptions of Fund shares is contingent not only on the settlement cycle of the United States securities markets, but also on delivery cycles of foreign markets, pursuant to an exemptive order on which the Fund may rely, the Fund's in-kind redemption proceeds must be paid within the maximum number of calendar days required for such payment or satisfaction in the principal local foreign markets where transactions in portfolio securities customarily clear and settle, but generally no later than 15 calendar days following tender of a Creation Unit Aggregation.

In connection with taking delivery of shares of non-U.S. Fund Securities upon redemption of shares of the Fund, a redeeming Beneficial Owner, or AP acting on behalf of such Beneficial Owner, must maintain appropriate security arrangements with a qualified broker-dealer, bank or other custody provider in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered.

To the extent contemplated by an AP's agreement, in the event the AP has submitted a redemption request in proper form but is unable to transfer all or part of the Creation Unit Aggregation to be redeemed to the Fund's transfer agent, the transfer agent will nonetheless accept the redemption request in reliance on the undertaking by the AP to deliver the missing shares as soon as possible. Such undertaking shall be secured by the AP's delivery and maintenance of collateral consisting of cash having a value (marked to market daily) at least equal to 105%, which Amplify Investments may change from time to time, of the value of the missing shares.

Because the portfolio securities of the Fund may trade on the relevant exchange(s) on days that the listing exchange for the Fund is closed or are otherwise not Business Days for the Fund, shareholders may not be able to redeem their shares of the Fund, or purchase and sell shares of the Fund on the listing exchange for the Fund, on days when the net asset value of the Fund could be significantly affected by events in the relevant foreign markets, if any.

#### **FEDERAL TAX MATTERS**

This section summarizes some of the main U.S. federal income tax consequences of owning shares of the Fund. This section is current as of the date of the Prospectus. Tax laws and interpretations change frequently, and these summaries do not describe all of the tax consequences to all taxpayers. For example, these summaries generally do not describe your situation if you are a corporation, a non-U.S. person, a broker-dealer, or other investor with special circumstances. In addition, this section does not describe your state, local or foreign tax consequences.

This federal income tax summary is based in part on the advice of counsel to the Fund. The Internal Revenue Service could disagree with any conclusions set forth in this section. In addition, our counsel was not asked to review, and has not reached a conclusion with respect to the federal income tax treatment of the assets to be deposited in the Fund. This may not be sufficient for prospective investors to use for the purpose of avoiding penalties under federal tax law.

As with any investment, prospective investors should seek advice based on their individual circumstances from their own tax advisor.

Set forth below is a discussion of certain U.S. federal income tax considerations affecting the Fund and the purchase, ownership and disposition of the Fund's shares ("*Shares*"). It is based upon the Internal Revenue Code of 1986, as amended (the "*Code*"), the regulations promulgated thereunder, judicial authorities, and administrative rulings and practices as in effect as of the date of this SAI, all of which are subject to change, including the following information which also supplements and should be read in conjunction with the section in the Prospectus entitled "Dividends, Distributions and Taxes."

The following is a summary of the material U.S. federal income tax considerations applicable to an investment in Shares. The summary is based on the laws in effect on the date of this SAI and existing judicial and administrative interpretations thereof, all of which are subject to change, possibly with retroactive effect. In addition, this summary assumes that the Fund shareholder holds Shares as capital assets within the meaning of the Code, and does not hold Shares in connection with a trade or business. This summary does not address all potential U.S. federal income tax considerations possibly applicable to an investment in Shares, to Fund shareholders holding Shares through a partnership (or other pass-through entity) or to Fund shareholders subject to special tax rules. Prospective Fund shareholders are urged to consult their own tax advisers with respect to the specific federal, state, local and foreign tax consequences of investing in Shares.

The Fund is taxed as a regular corporation for federal income tax purposes and as such is obligated to pay federal and applicable state and foreign corporate taxes on its taxable income. This differs from most investment companies, which elect to be treated as "regulated investment companies" under the Code in order to avoid paying entity level income taxes. Under current law, the Fund is not eligible to elect treatment as a regulated investment company due to its investments primarily in MLPs invested in energy assets. As a result, the Fund will be obligated to pay federal and state taxes on its taxable income as opposed to most other investment companies which are not so obligated.

As discussed below, the Fund expects that a portion of the distribution it receives from MLPs may be treated as a tax-deferred return of capital, thus reducing the Fund's current tax liability. However, the amount of taxes currently paid by the Fund will vary depending on the amount of income and gains derived from investments and/or sales of MLP interests and such taxes will reduce your return from an investment in the Fund.

The Fund invests its assets primarily in MLPs, which generally are treated as partnerships for federal income tax purposes. As a partner in the MLPs, the fund must report its allocable share of the MLPs' taxable income in computing its taxable income, regardless of the extent (if any) to which the MLPs make distributions. Based upon the Adviser's review of the historic results of the types of MLPs in which the Fund invests, the Adviser expects that the cash flow received by the fund with respect to its MLP investments will generally exceed the taxable income allocated to the Fund (and this excess generally will not be currently taxable to the Fund but, rather, will result in a reduction of the Fund's adjusted tax basis in each MLP as described in the following paragraph). This is the result of a variety of factors, including significant non-cash deductions, such as accelerated depreciation. There is no assurance that the Adviser's expectation regarding the tax character of MLP distributions will be realized. If this expectation is not realized, there may be greater tax expense borne by the Fund and less cash available to distribute to you or to pay to expenses.

The Fund will also be subject to U.S. federal income tax at the regular graduated corporate tax rates on any gain recognized by the applicable Fund on any sale of equity securities of an MLP. Cash distributions from an MLP to the Fund that exceed such Fund's allocable share of such MLP's net taxable income will reduce the Fund's adjusted tax basis in the equity securities of the MLP. These reductions in such Fund's adjusted tax basis in the MLP equity securities will increase the amount of any taxable gain (or decrease the amount of any tax loss) recognized by the Fund on a subsequent sale of the securities.

The Fund will accrue deferred income taxes for any future tax liability associated with (i) that portion of MLP distributions considered to be a tax-deferred return of capital as well as (ii) capital appreciation of its investments. Upon the sale of MLP security, the Fund may be liable for previously deferred taxes. The Fund will rely to some extent on information provided by the MLPs which is not necessarily timely, to estimate deferred tax liability for purposes of financial statement reporting and determining the NAV. From time to time, the Adviser will modify the estimates or assumptions regarding the Fund's deferred tax liability as new information becomes available. The Fund will generally compute deferred income taxes based on the federal income tax rate applicable to corporations currently 35% and an assumed rate attributable to state taxes.

The sale, exchange or redemption of Shares may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of Shares will be treated as long-term capital gain or loss if the Shares have been held for more than one year. Otherwise, the gain or loss on the taxable disposition of Shares will be treated as short-term capital gain or loss. The tax basis of Shares of the Fund must be reduced by any distribution which is treated as a return of capital for tax purposes. A loss realized on a sale or exchange of Shares of the Fund may be disallowed if Fund Shares or other substantially identical shares are acquired (whether through the automatic reinvestment of dividends or otherwise) within a sixty-one (61) day period beginning thirty (30) days before and ending thirty (30) days after the date on which the Shares are disposed. In such a case, the basis of the shares acquired must be adjusted to reflect the disallowed loss.

Distributions reinvested in additional Shares of the Fund through the means of a dividend reinvestment service (see above) will nevertheless generally be taxable dividends to shareholders acquiring such additional Shares.

Distributions by the Fund will be treated as dividends for U.S. federal income tax purposes to the extent paid from such Fund's current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Dividends paid by the Fund to a shareholder who is a nonresident alien or foreign entity ("*Non-U.S. Shareholder*") generally will be subject to withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty. If an income tax treaty applies to a Non-U.S. Shareholder, the Non-U.S. Shareholder will be required to provide an IRS Form W-8BEN or IRS Form W-8BEN-E certifying its entitlement to benefits under the treaty in order to obtain a reduced rate of withholding tax.

If the amount of a distribution exceeds a Non-U.S. Shareholder's allocable share of the Fund's current and accumulated earnings and profits, such excess will be treated for U.S. federal income tax purposes as a tax-free return of capital to the extent of the Non-U.S. Shareholder's tax basis in such Fund's shares. To the extent that any distribution received by a Non-U.S. Shareholder exceeds the sum of (i) such Non-U.S. Shareholder's allocable share of the Fund's current and accumulated earnings and profits and (ii) such Non-U.S. Shareholder's tax basis in such Fund's shares, such excess will be treated as gain from the sale of the shares and will be taxed as described below.

A redemption of common shares will be treated as a sale or exchange of such shares, provided the redemption either is not essentially equivalent to a dividend, is a substantially disproportionate redemption, is a complete redemption of a shareholder's entire interest in the Fund, or is in partial liquidation of such Fund. Redemptions that do not qualify for sale or exchange treatment will be treated as described above.

A Non-U.S. Shareholder generally will not be subject to U.S. federal income tax on gain realized on a redemption that is treated as a sale or exchange for U.S. federal income tax purposes, or on gain realized on the sale, exchange or other non-redemption disposition of the Fund's Shares, except in the following cases: the gain is effectively connected with a trade or business of the Non-U.S. Shareholder in the U.S. or, if the Non-U.S. Shareholder is a qualifying resident of a country with which the U.S. has a tax treaty, such gain is attributable to a permanent establishment maintained by such Non-U.S. Shareholder in the U.S.; the Non-U.S. Shareholder is an individual who is present in the U.S. for 183 days or more in the taxable year of disposition and who has a "tax home" in the U.S.; or the Fund is or has been a U.S. real property holding corporation, as defined below, at any time within the five-year period preceding the date of disposition of the common shares or, if shorter, within the period during which the Non-U.S. Shareholder has held the common shares. Generally, a corporation is a U.S. real property holding corporation if the fair market value of its U.S. real property interests, as defined in the Code and applicable regulations, equals or exceeds 50% of the aggregate fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. The Fund may be, or may prior to a Non-U.S. Shareholder's disposition of common shares become, a U.S. real property holding corporation.

Any Non-U.S. Shareholder who is described in one of the foregoing cases is urged to consult his, her or its own tax advisor regarding the U.S. federal income tax consequences of the redemption, sale, exchange or other disposition of common shares.

Withholding of U.S. tax (at a 30% rate) is required with respect to payments of dividends and (effective January 1, 2019) redemption proceeds and certain capital gain dividends made to certain non-U.S. entities that fail to comply (or be deemed compliant) with extensive new reporting and withholding requirements designed to inform the U.S. Department of the Treasury of U.S.-owned foreign investment accounts. Shareholders may be requested to provide additional information to enable the applicable withholding agent to determine whether withholding is required.

Non-U.S. Shareholders may also be subject to U.S. estate tax with respect to their shares of the Fund.

Federal regulations generally require the Fund to withhold and remit to the U.S. Treasury a “backup withholding” tax with respect to dividends and the proceeds of any redemption paid to you if you fail to furnish the applicable Fund or the Fund’s paying agent with a properly completed and executed IRS Form W-9, Form W-8BEN, Form W-8BEN-E or other applicable form. Furthermore, the Service may notify the applicable Fund to institute backup withholding if the Service determines that your TIN is incorrect or if you have failed to properly report taxable dividends or interest on a federal tax return. A TIN is either the Social Security number or employer identification number of the record owner of the account. Any tax withheld as a result of backup withholding does not constitute an additional tax imposed on the record owner of the account and may be claimed as a credit on the record owner’s federal income tax return. The backup withholding rate is currently 28%. The ability to deduct capital losses may be limited.

The foregoing discussion is a summary only and is not intended as a substitute for careful tax planning. Purchasers of Shares should consult their own tax advisors as to the tax consequences of investing in such Shares, including under federal, state, local and other tax laws. Finally, the foregoing discussion is based on applicable provisions of the Code, regulations, judicial authority and administrative interpretations in effect on the date hereof. Changes in applicable authority could materially affect the conclusions discussed above, possibly retroactively.

#### OTHER TAXATION

Fund shareholders may be subject to state, local and foreign taxes on their Fund distributions. Shareholders are advised to consult their own tax advisors with respect to the particular tax consequences to them of an investment in the Fund.

#### DETERMINATION OF NET ASSET VALUE

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Net Asset Value.”

The per share net asset value of the Fund is determined by dividing the total value of the securities and other assets, less liabilities, by the total number of shares outstanding. Market value prices represent last sale or official closing prices from a national or foreign exchange (*i.e.*, a regulated market) and are primarily obtained from third party pricing services. Under normal circumstances, daily calculation of the net asset value will utilize the last closing price of each security held by the Fund at the close of the market on which such security is principally listed. In determining net asset value, portfolio securities for the Fund for which accurate market quotations are readily available will be valued by the Fund accounting agent as follows:

(1) Common stocks and other equity securities listed on any national or foreign exchange other than The NASDAQ Stock Market® LLC (“*NASDAQ*”) and the London Stock Exchange Alternative Investment Market (“*AIM*”) will be valued at the last sale price on the business day as of which such value is being determined. Securities listed on NASDAQ or AIM are valued at the official closing price on the business day as of which such value is being determined. If there has been no sale on such day, or no official closing price in the case of securities traded on NASDAQ and AIM, the securities are valued at the midpoint between the most recent bid and ask prices on such day. Portfolio securities traded on more than one securities exchange are valued at the last sale price or official closing price, as applicable, on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities.

(2) Securities traded in the OTC market are valued at the midpoint between the bid and asked price, if available, and otherwise at their closing bid prices.

In addition, the following types of securities will be valued as follows:

(1) Fixed income securities with a remaining maturity of 60 days or more will be valued by the fund accounting agent using a pricing service. When price quotes are not available, fair value is based on prices of comparable securities.

(2) Fixed income securities maturing within 60 days are valued by the Fund accounting agent on an amortized cost basis.

The value of any portfolio security held by the Fund for which market quotations are not readily available will be determined by Amplify Investments in a manner that most fairly reflects fair market value of the security on the valuation date, based on a consideration of all available information.

Certain securities may not be able to be priced by pre-established pricing methods. Such securities may be valued by the Board of Trustees or its delegate at fair value. These securities generally include but are not limited to, restricted securities (securities which may not be publicly sold without registration under the 1933 Act) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of Fund net asset value (as may be the case in foreign markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, does not reflect the security’s “fair value.” As a general principle, the current “fair value” of an issue of securities would appear to be the amount, that the owner might reasonably expect to receive for them upon their current sale. A variety of factors may be considered in determining the fair value of such securities.

Valuing the Fund's investments using fair value pricing will result in using prices for those investments that may differ from current market valuations.

Because foreign markets may be open on different days than the days during which a shareholder may purchase the shares of the Fund, the value of the Fund's investments may change on the days when shareholders are not able to purchase the shares of the Fund.

The Fund may suspend the right of redemption for the Fund only under the following unusual circumstances: (i) when the NYSE is closed (other than weekends and holidays) or trading is restricted; (ii) when trading in the markets normally utilized is restricted, or when an emergency exists as determined by the SEC so that disposal of the Fund's investments or determination of its net assets is not reasonably practicable; or (iii) during any period when the SEC may permit.

#### **DIVIDENDS AND DISTRIBUTIONS**

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Dividends, Distributions and Taxes."

*General Policies.* Dividends from net investment income of the Fund, if any, are declared and paid at least annually. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Trust may make distributions on a more frequent basis. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of the Fund as a regulated investment company or to avoid imposition of income or excise taxes on undistributed income.

Dividends and other distributions of Fund shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Fund.

*Dividend Reinvestment Service.* No reinvestment service is provided by the Trust. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Fund for reinvestment of their dividend distributions. Beneficial Owners should contact their brokers in order to determine the availability and costs of the service and the details of participation therein. Brokers may require Beneficial Owners to adhere to specific procedures and timetables. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole shares of the Fund purchased in the secondary market.

#### **MISCELLANEOUS INFORMATION**

*Counsel.* Chapman and Cutler LLP, 111 West Monroe Street, Chicago, Illinois 60603, is counsel to the Trust.

*Independent Registered Public Accounting Firm.* Cohen & Company, Ltd., 1350 Euclid Avenue, Suite 800, Cleveland, Ohio 44115, serves as the Fund's independent registered public accounting firm. The firm audits the Fund's financial statements and performs other related audit services.

## Concise Proxy Voting Guidelines

2017 Benchmark Policy Recommendations

Effective for Meetings on or after February 1, 2017

Published January 17, 2017

[www.issgovernance.com](http://www.issgovernance.com)

© 2017 ISS | Institutional Shareholder Services

The policies contained herein are a sampling of selected key U.S. proxy voting guidelines and are not intended to be exhaustive. A full summary of ISS' 2017 proxy voting guidelines can be found at: <https://www.issgovernance.com/policy-gateway/2017-policy-information/>

## BOARD OF DIRECTORS:

 **General Recommendation:** Generally vote for director nominees, except under the following circumstances:

### 1. Accountability

Vote against<sup>1</sup> or withhold from the entire board of directors (except new nominees<sup>2</sup>, who should be considered case-by-case) for the following:

#### *Problematic Takeover Defenses*

##### **Classified Board Structure:**

- 1.1. The board is classified, and a continuing director responsible for a problematic governance issue at the board/committee level that would warrant a withhold/against vote recommendation is not up for election. All appropriate nominees (except new) may be held accountable.

##### **Director Performance Evaluation:**

- 1.2. The board lacks accountability and oversight, coupled with sustained poor performance relative to peers. Sustained poor performance is measured by one- and three-year total shareholder returns in the bottom half of a company's four-digit GICS industry group (Russell 3000 companies only). Take into consideration the company's five-year total shareholder return and operational metrics. Problematic provisions include but are not limited to:
  - A classified board structure;
  - A supermajority vote requirement;
  - Either a plurality vote standard in uncontested director elections or a majority vote standard with no plurality carve-out for contested elections;
  - The inability of shareholders to call special meetings;
  - The inability of shareholders to act by written consent;
  - A dual-class capital structure; and/or
  - A non-shareholder-approved poison pill.

#### **Poison Pills:**

- <sup>1</sup> In general, companies with a plurality vote standard use "Withhold" as the contrary vote option in director elections; companies with a majority vote standard use "Against". However, it will vary by company and the proxy must be checked to determine the valid contrary vote option for the particular company.
- <sup>2</sup> A "new nominee" is any current nominee who has not already been elected by shareholders and who joined the board after the problematic action in question transpired. If ISS cannot determine whether the nominee joined the board before or after the problematic action transpired, the nominee will be considered a "new nominee" if he or she joined the board within the 12 months prior to the upcoming shareholder meeting.

- 1.3. The company's poison pill has a "dead-hand" or "modified dead-hand" feature. Vote against or withhold from nominees every year until this feature is removed;
- 1.4. The board adopts a poison pill with a term of more than 12 months ("long-term pill"), or renews any existing pill, including any "short-term pill" (12 months or less), without shareholder approval. A commitment or policy that puts a newly adopted pill to a binding shareholder vote may potentially offset an adverse vote recommendation. Review such companies with classified boards every year, and such companies with annually elected boards at least once every three years, and vote against or withhold votes from all nominees if the company still maintains a non-shareholder-approved poison pill; or
- 1.5. The board makes a material adverse change to an existing poison pill without shareholder approval.

Vote case-by-case on all nominees if:

- 1.6. The board adopts a poison pill with a term of 12 months or less ("short-term pill") without shareholder approval, taking into account the following factors:
  - The date of the pill's adoption relative to the date of the next meeting of shareholders—i.e. whether the company had time to put the pill on the ballot for shareholder ratification given the circumstances;
  - The issuer's rationale;
  - The issuer's governance structure and practices; and
  - The issuer's track record of accountability to shareholders.

### **Restricting Binding Shareholder Proposals:**

Generally vote against or withhold from members of the governance committee if:

- 1.7. The company's charter imposes undue restrictions on shareholders' ability to amend the bylaws. Such restrictions include, but are not limited to: outright prohibition on the submission of binding shareholder proposals, or share ownership requirements or time holding requirements in excess of SEC Rule 14a-8. Vote against on an ongoing basis.

### ***Problematic Audit-Related Practices***

Generally vote against or withhold from the members of the Audit Committee if:

- 1.8. The non-audit fees paid to the auditor are excessive (see discussion under "[Auditor Ratification](#)");
- 1.9. The company receives an adverse opinion on the company's financial statements from its auditor; or
- 1.10. There is persuasive evidence that the Audit Committee entered into an inappropriate indemnification agreement with its auditor that limits the ability of the company, or its shareholders, to pursue legitimate legal recourse against the audit firm.

Vote case-by-case on members of the Audit Committee and potentially the full board if:

- 1.11. Poor accounting practices are identified that rise to a level of serious concern, such as: fraud; misapplication of GAAP; and material weaknesses identified in Section 404 disclosures. Examine the severity, breadth, chronological sequence, and duration, as well as the company's efforts at remediation or corrective actions, in determining whether withhold/against votes are warranted.

### ***Problematic Compensation Practices/Pay for Performance Misalignment***

In the absence of an Advisory Vote on Executive Compensation ballot item or in egregious situations, vote against or withhold from the members of the Compensation Committee and potentially the full board if:

- 1.12. There is a significant misalignment between CEO pay and company performance (pay for performance);
- 1.13. The company maintains significant problematic pay practices;
- 1.14. The board exhibits a significant level of poor communication and responsiveness to shareholders;
- 1.15. The company fails to submit one-time transfers of stock options to a shareholder vote; or
- 1.16. The company fails to fulfill the terms of a burn-rate commitment made to shareholders.

Vote case-by-case on Compensation Committee members (or, in exceptional cases, the full board) and the Management Say-on-Pay proposal if:

- 1.17. The company's previous say-on-pay received the support of less than 70 percent of votes cast, taking into account:
  - The company's response, including:
    - Disclosure of engagement efforts with major institutional investors regarding the issues that contributed to the low level of support;
    - Specific actions taken to address the issues that contributed to the low level of support;
    - Other recent compensation actions taken by the company;
  - Whether the issues raised are recurring or isolated;
  - The company's ownership structure; and
  - Whether the support level was less than 50 percent, which would warrant the highest degree of responsiveness.

***Unilateral Bylaw/Charter Amendments and Problematic Capital Structures***

- 1.18. Generally vote against or withhold from directors individually, committee members, or the entire board (except new nominees, who should be considered case-by-case) if the board amends the company's bylaws or charter without shareholder approval in a manner that materially diminishes shareholders' rights or that could adversely impact shareholders, considering the following factors:
  - The board's rationale for adopting the bylaw/charter amendment without shareholder ratification;
  - Disclosure by the company of any significant engagement with shareholders regarding the amendment;
  - The level of impairment of shareholders' rights caused by the board's unilateral amendment to the bylaws/charter;
  - The board's track record with regard to unilateral board action on bylaw/charter amendments or other entrenchment provisions;
  - The company's ownership structure;
  - The company's existing governance provisions;
  - The timing of the board's amendment to the bylaws/charter in connection with a significant business development; and
  - Other factors, as deemed appropriate, that may be relevant to determine the impact of the amendment on shareholders.

Unless the adverse amendment is reversed or submitted to a binding shareholder vote, in subsequent years vote case-by-case on director nominees. Generally vote against (except new nominees, who should be considered case-by-case) if the directors:

- Classified the board;
  - Adopted supermajority vote requirements to amend the bylaws or charter; or
  - Eliminated shareholders' ability to amend bylaws.
- 1.19. For newly public companies, generally vote against or withhold from directors individually, committee members, or the entire board (except new nominees, who should be considered case-by-case) if, prior to or in connection with the company's public offering, the company or its board adopted bylaw or charter provisions materially adverse to shareholder rights, or implemented a multi-class capital structure in which the classes have unequal voting rights considering the following factors:

- The level of impairment of shareholders' rights;
- The disclosed rationale;
- The ability to change the governance structure (e.g., limitations on shareholders' right to amend the bylaws or charter, or supermajority vote requirements to amend the bylaws or charter);
- The ability of shareholders to hold directors accountable through annual director elections, or whether the company has a classified board structure;
- Any reasonable sunset provision; and
- Other relevant factors.

Unless the adverse provision and/or problematic capital structure is reversed or removed, vote case-by-case on director nominees in subsequent years.

### ***Governance Failures***

Under extraordinary circumstances, vote against or withhold from directors individually, committee members, or the entire board, due to:

- 1.20. Material failures of governance, stewardship, risk oversight<sup>3</sup>, or fiduciary responsibilities at the company;
- 1.21. Failure to replace management as appropriate; or
- 1.22. Egregious actions related to a director's service on other boards that raise substantial doubt about his or her ability to effectively oversee management and serve the best interests of shareholders at any company.

### **2. Responsiveness**

Vote case-by-case on individual directors, committee members, or the entire board of directors as appropriate if:

- 2.1. The board failed to act on a shareholder proposal that received the support of a majority of the shares cast in the previous year. Factors that will be considered are:
  - Disclosed outreach efforts by the board to shareholders in the wake of the vote;
  - Rationale provided in the proxy statement for the level of implementation;
  - The subject matter of the proposal;
  - The level of support for and opposition to the resolution in past meetings;
  - Actions taken by the board in response to the majority vote and its engagement with shareholders;
  - The continuation of the underlying issue as a voting item on the ballot (as either shareholder or management proposals); and
  - Other factors as appropriate.
- 2.2. The board failed to act on takeover offers where the majority of shares are tendered;
- 2.3. At the previous board election, any director received more than 50 percent withhold/against votes of the shares cast and the company has failed to address the issue(s) that caused the high withhold/against vote;
- 2.4. The board implements an advisory vote on executive compensation on a less frequent basis than the frequency that received the majority of votes cast at the most recent shareholder meeting at which shareholders voted on the say-on-pay frequency; or

<sup>3</sup> Examples of failure of risk oversight include, but are not limited to: bribery; large or serial fines or sanctions from regulatory bodies; significant adverse legal judgments or settlements; hedging of company stock; or significant pledging of company stock.

- 2.5. The board implements an advisory vote on executive compensation on a less frequent basis than the frequency that received a plurality, but not a majority, of the votes cast at the most recent shareholder meeting at which shareholders voted on the say-on-pay frequency, taking into account:
- The board's rationale for selecting a frequency that is different from the frequency that received a plurality;
  - The company's ownership structure and vote results;
  - ISS' analysis of whether there are compensation concerns or a history of problematic compensation practices; and
  - The previous year's support level on the company's say-on-pay proposal.

### 3. Composition

#### Attendance at Board and Committee Meetings:

- 3.1. Generally vote against or withhold from directors (except new nominees, who should be considered case-by-case<sup>4</sup>) who attend less than 75 percent of the aggregate of their board and committee meetings for the period for which they served, unless an acceptable reason for absences is disclosed in the proxy or another SEC filing. Acceptable reasons for director absences are generally limited to the following:
- Medical issues/illness;
  - Family emergencies; and
  - Missing only one meeting (when the total of all meetings is three or fewer).
- 3.2. If the proxy disclosure is unclear and insufficient to determine whether a director attended at least 75 percent of the aggregate of his/her board and committee meetings during his/her period of service, vote against or withhold from the director(s) in question.

#### Overboarded Directors:

Generally vote against or withhold from individual directors who:

- 3.3. Sit on more than five public company boards; or
- 3.4. Are CEOs of public companies who sit on the boards of more than two public companies besides their own—withhold only at their outside boards<sup>5</sup>.

### 4. Independence

Vote against or withhold from Inside Directors and Affiliated Outside Directors (per the Categorization of Directors) when:

- 4.1. The inside or affiliated outside director serves on any of the three key committees: audit, compensation, or nominating;
- 4.2. The company lacks an audit, compensation, or nominating committee so that the full board functions as that committee;
- 4.3. The company lacks a formal nominating committee, even if the board attests that the independent directors fulfill the functions of such a committee; or

- <sup>4</sup> For new nominees only, schedule conflicts due to commitments made prior to their appointment to the board are considered if disclosed in the proxy or another SEC filing.
- <sup>5</sup> Although all of a CEO's subsidiary boards will be counted as separate boards, ISS will not recommend a withhold vote for the CEO of a parent company board or any of the controlled (>50 percent ownership) subsidiaries of that parent, but may do so at subsidiaries that are less than 50 percent controlled and boards outside the parent/subsidiary relationships.

4.4. Independent directors make up less than a majority of the directors.

### **Independent Chair (Separate Chair/CEO)**

 **General Recommendation:** Generally vote for shareholder proposals requiring that the chairman's position be filled by an independent director, taking into consideration the following:

- The scope of the proposal;
- The company's current board leadership structure;
- The company's governance structure and practices;
- Company performance; and
- Any other relevant factors that may be applicable.

Regarding the scope of the proposal, consider whether the proposal is precatory or binding and whether the proposal is seeking an immediate change in the chairman role or the policy can be implemented at the next CEO transition.

Under the review of the company's board leadership structure, ISS may support the proposal under the following scenarios absent a compelling rationale: the presence of an executive or non-independent chair in addition to the CEO; a recent recombination of the role of CEO and chair; and/or departure from a structure with an independent chair. ISS will also consider any recent transitions in board leadership and the effect such transitions may have on independent board leadership as well as the designation of a lead director role.

When considering the governance structure, ISS will consider the overall independence of the board, the independence of key committees, the establishment of governance guidelines, board tenure and its relationship to CEO tenure, and any other factors that may be relevant. Any concerns about a company's governance structure will weigh in favor of support for the proposal.

The review of the company's governance practices may include, but is not limited to, poor compensation practices, material failures of governance and risk oversight, related-party transactions or other issues putting director independence at risk, corporate or management scandals, and actions by management or the board with potential or realized negative impact on shareholders. Any such practices may suggest a need for more independent oversight at the company thus warranting support of the proposal.

ISS' performance assessment will generally consider one-, three-, and five-year TSR compared to the company's peers and the market as a whole. While poor performance will weigh in favor of the adoption of an independent chair policy, strong performance over the long term will be considered a mitigating factor when determining whether the proposed leadership change warrants support.

### **Proxy Access**

 **General Recommendation:** Generally vote for management and shareholder proposals for proxy access with the following provisions:

- **Ownership threshold:** maximum requirement not more than three percent (3%) of the voting power;
- **Ownership duration:** maximum requirement not longer than three (3) years of continuous ownership for each member of the nominating group;
- **Aggregation:** minimal or no limits on the number of shareholders permitted to form a nominating group;
- **Cap:** cap on nominees of generally twenty-five percent (25%) of the board.

Review for reasonableness any other restrictions on the right of proxy access.

Generally vote against proposals that are more restrictive than these guidelines.

## Proxy Contests/Proxy Access — Voting for Director Nominees in Contested Elections

▶ **General Recommendation:** Vote case-by-case on the election of directors in contested elections, considering the following factors:

- Long-term financial performance of the company relative to its industry;
- Management's track record;
- Background to the contested election;
- Nominee qualifications and any compensatory arrangements;
- Strategic plan of dissident slate and quality of the critique against management;
- Likelihood that the proposed goals and objectives can be achieved (both slates); and
- Stock ownership positions.

In the case of candidates nominated pursuant to proxy access, vote case-by-case considering any applicable factors listed above or additional factors which may be relevant, including those that are specific to the company, to the nominee(s) and/or to the nature of the election (such as whether or not there are more candidates than board seats).

## CAPITAL/RESTRUCTURING

### Capital

#### Common Stock Authorization

▶ **General Recommendation:** Vote for proposals to increase the number of authorized common shares where the primary purpose of the increase is to issue shares in connection with a transaction on the same ballot that warrants support.

Vote against proposals at companies with more than one class of common stock to increase the number of authorized shares of the class of common stock that has superior voting rights.

Vote against proposals to increase the number of authorized common shares if a vote for a reverse stock split on the same ballot is warranted despite the fact that the authorized shares would not be reduced proportionally.

Vote case-by-case on all other proposals to increase the number of shares of common stock authorized for issuance. Take into account company-specific factors that include, at a minimum, the following:

- Past Board Performance:
  - The company's use of authorized shares during the last three years;
- The Current Request:
  - Disclosure in the proxy statement of the specific purposes of the proposed increase;
  - Disclosure in the proxy statement of specific and severe risks to shareholders of not approving the request; and
  - The dilutive impact of the request as determined relative to an allowable increase calculated by ISS (typically 100 percent of existing authorized shares) that reflects the company's need for shares and total shareholder returns.

ISS will apply the relevant allowable increase below to requests to increase common stock that are for general corporate purposes (or to the general corporate purposes portion of a request that also includes a specific need):

A. Most companies: **100 percent** of existing authorized shares.

- B. Companies with less than 50 percent of existing authorized shares either outstanding or reserved for issuance: **50 percent** of existing authorized shares.
- C. Companies with one- and three-year total shareholder returns (TSRs) in the bottom 10 percent of the U.S. market as of the end of the calendar quarter that is closest to their most recent fiscal year end: **50 percent** of existing authorized shares.
- D. Companies at which both conditions (B and C) above are both present: **25 percent** of existing authorized shares.

If there is an acquisition, private placement, or similar transaction on the ballot (not including equity incentive plans) that ISS is recommending FOR, the allowable increase will be the greater of (i) twice the amount needed to support the transactions on the ballot, and (ii) the allowable increase as calculated above.

## Mergers and Acquisitions

 **General Recommendation:** Vote case-by-case on mergers and acquisitions. Review and evaluate the merits and drawbacks of the proposed transaction, balancing various and sometimes countervailing factors including:

- *Valuation* - Is the value to be received by the target shareholders (or paid by the acquirer) reasonable? While the fairness opinion may provide an initial starting point for assessing valuation reasonableness, emphasis is placed on the offer premium, market reaction, and strategic rationale.
- *Market reaction* - How has the market responded to the proposed deal? A negative market reaction should cause closer scrutiny of a deal.
- *Strategic rationale* - Does the deal make sense strategically? From where is the value derived? Cost and revenue synergies should not be overly aggressive or optimistic, but reasonably achievable. Management should also have a favorable track record of successful integration of historical acquisitions.
- *Negotiations and process* - Were the terms of the transaction negotiated at arm's-length? Was the process fair and equitable? A fair process helps to ensure the best price for shareholders. Significant negotiation "wins" can also signify the deal makers' competency. The comprehensiveness of the sales process (e.g., full auction, partial auction, no auction) can also affect shareholder value.
- *Conflicts of interest* - Are insiders benefiting from the transaction disproportionately and inappropriately as compared to non-insider shareholders? As the result of potential conflicts, the directors and officers of the company may be more likely to vote to approve a merger than if they did not hold these interests. Consider whether these interests may have influenced these directors and officers to support or recommend the merger. The CIC figure presented in the "ISS Transaction Summary" section of this report is an aggregate figure that can in certain cases be a misleading indicator of the true value transfer from shareholders to insiders. Where such figure appears to be excessive, analyze the underlying assumptions to determine whether a potential conflict exists.
- *Governance* - Will the combined company have a better or worse governance profile than the current governance profiles of the respective parties to the transaction? If the governance profile is to change for the worse, the burden is on the company to prove that other issues (such as valuation) outweigh any deterioration in governance.

## COMPENSATION

### Executive Pay Evaluation

Underlying all evaluations are five global principles that most investors expect corporations to adhere to in designing and administering executive and director compensation programs:

1. Maintain appropriate pay-for-performance alignment, with emphasis on long-term shareholder value: This principle encompasses overall executive pay practices, which must be designed to attract, retain, and appropriately motivate the key employees who drive shareholder value creation over the long term. It will take into consideration, among other factors, the link between pay and performance; the mix between fixed and variable pay; performance goals; and equity-based plan costs;

2. Avoid arrangements that risk “pay for failure”: This principle addresses the appropriateness of long or indefinite contracts, excessive severance packages, and guaranteed compensation;
3. Maintain an independent and effective compensation committee: This principle promotes oversight of executive pay programs by directors with appropriate skills, knowledge, experience, and a sound process for compensation decision-making (*e.g.*, including access to independent expertise and advice when needed);
4. Provide shareholders with clear, comprehensive compensation disclosures: This principle underscores the importance of informative and timely disclosures that enable shareholders to evaluate executive pay practices fully and fairly;
5. Avoid inappropriate pay to non-executive directors: This principle recognizes the interests of shareholders in ensuring that compensation to outside directors does not compromise their independence and ability to make appropriate judgments in overseeing managers’ pay and performance. At the market level, it may incorporate a variety of generally accepted best practices.

### **Advisory Votes on Executive Compensation—Management Proposals (Management Say-on-Pay)**

 **General Recommendation:** Vote case-by-case on ballot items related to executive pay and practices, as well as certain aspects of outside director compensation.

Vote against Advisory Votes on Executive Compensation (Management Say-on-Pay or “MSOP”) if:

- There is a significant misalignment between CEO pay and company performance (pay for performance);
- The company maintains significant problematic pay practices;
- The board exhibits a significant level of poor communication and responsiveness to shareholders.

Vote against or withhold from the members of the Compensation Committee and potentially the full board if:

- There is no MSOP on the ballot, and an against vote on an MSOP is warranted due to pay-for-performance misalignment, problematic pay practices, or the lack of adequate responsiveness on compensation issues raised previously, or a combination thereof;
- The board fails to respond adequately to a previous MSOP proposal that received less than 70 percent support of votes cast;
- The company has recently practiced or approved problematic pay practices, including option repricing or option backdating; or
- The situation is egregious.

### **Primary Evaluation Factors for Executive Pay**

#### **Pay-for-Performance Evaluation**

ISS annually conducts a pay-for-performance analysis to identify strong or satisfactory alignment between pay and performance over a sustained period. With respect to companies in the Russell 3000 or Russell 3000E Indices<sup>6</sup>, this analysis considers the following:

<sup>6</sup> The Russell 3000E Index includes approximately 4,000 of the largest U.S. equity securities.

1. Peer Group<sup>7</sup> Alignment:

- The degree of alignment between the company's annualized TSR rank and the CEO's annualized total pay rank within a peer group, each measured over a three-year period.
  - The multiple of the CEO's total pay relative to the peer group median.
2. Absolute Alignment<sup>8</sup> – the absolute alignment between the trend in CEO pay and company TSR over the prior five fiscal years – i.e., the difference between the trend in annual pay changes and the trend in annualized TSR during the period.

If the above analysis demonstrates significant unsatisfactory long-term pay-for-performance alignment or, in the case of companies outside the Russell indices, misaligned pay and performance are otherwise suggested, our analysis may include any of the following qualitative factors, as relevant to evaluating how various pay elements may work to encourage or to undermine long-term value creation and alignment with shareholder interests:

- The ratio of performance- to time-based equity awards;
- The overall ratio of performance-based compensation;
- The completeness of disclosure and rigor of performance goals;
- The company's peer group benchmarking practices;
- Actual results of financial/operational metrics, such as growth in revenue, profit, cash flow, etc., both absolute and relative to peers;
- Special circumstances related to, for example, a new CEO in the prior FY or anomalous equity grant practices (e.g., bi-annual awards);
- Realizable pay<sup>9</sup> compared to grant pay; and
- Any other factors deemed relevant.

**Problematic Pay Practices**

The focus is on executive compensation practices that contravene the global pay principles, including:

- Problematic practices related to non-performance-based compensation elements;
- Incentives that may motivate excessive risk-taking; and
- Options backdating.

**Problematic Pay Practices Related to Non-Performance-Based Compensation Elements**

Pay elements that are not directly based on performance are generally evaluated case-by-case considering the context of a company's overall pay program and demonstrated pay-for-performance philosophy. Please refer to ISS' Compensation FAQ document for detail on specific pay practices that have been identified as potentially problematic and may lead to negative recommendations if they are deemed to be inappropriate or unjustified relative to executive pay best practices. The list below highlights the problematic practices that carry significant weight in this overall consideration and may result in adverse vote recommendations:

<sup>7</sup> The revised peer group is generally comprised of 14-24 companies that are selected using market cap, revenue (or assets for certain financial firms), GICS industry group, and company's selected peers' GICS industry group, with size constraints, via a process designed to select peers that are comparable to the subject company in terms of revenue/assets and industry, and also within a market-cap bucket that is reflective of the company's. For Oil, Gas & Consumable Fuels companies, market cap is the only size determinant.

<sup>8</sup> Only Russell 3000 Index companies are subject to the Absolute Alignment analysis.

<sup>9</sup> ISS research reports include realizable pay for S&P1500 companies.

- Repricing or replacing of underwater stock options/SARS without prior shareholder approval (including cash buyouts and voluntary surrender of underwater options);
- Excessive perquisites or tax gross-ups, including any gross-up related to a secular trust or restricted stock vesting;
- New or extended agreements that provide for:
  - CIC payments exceeding 3 times base salary and average/target/most recent bonus;
  - CIC severance payments without involuntary job loss or substantial diminution of duties (“single” or “modified single” triggers);
  - CIC payments with excise tax gross-ups (including “modified” gross-ups);
- Insufficient executive compensation disclosure by externally-managed issuers (EMIs) such that a reasonable assessment of pay programs and practices applicable to the EMI’s executives is not possible.

### **Incentives That May Motivate Excessive Risk-Taking**

- Multi-year guaranteed bonuses;
- A single or common performance metric used for short- and long-term plans;
- Lucrative severance packages;
- High pay opportunities relative to industry peers;
- Disproportionate supplemental pensions; or
- Mega annual equity grants that provide unlimited upside with no downside risk.

Factors that potentially mitigate the impact of risky incentives include rigorous claw-back provisions and robust stock ownership/holding guidelines.

### **Options Backdating**

The following factors should be examined case-by-case to allow for distinctions to be made between “sloppy” plan administration versus deliberate action or fraud:

- Reason and motive for the options backdating issue, such as inadvertent vs. deliberate grant date changes;
- Duration of options backdating;
- Size of restatement due to options backdating;
- Corrective actions taken by the board or compensation committee, such as canceling or re-pricing backdated options, the recouping of option gains on backdated grants; and
- Adoption of a grant policy that prohibits backdating, and creates a fixed grant schedule or window period for equity grants in the future.

### **Compensation Committee Communications and Responsiveness**

Consider the following factors case-by-case when evaluating ballot items related to executive pay on the board’s responsiveness to investor input and engagement on compensation issues:

- Failure to respond to majority-supported shareholder proposals on executive pay topics; or
- Failure to adequately respond to the company’s previous say-on-pay proposal that received the support of less than 70 percent of votes cast, taking into account:
  - The company’s response, including:
    - Disclosure of engagement efforts with major institutional investors regarding the issues that contributed to the low level of support;
    - Specific actions taken to address the issues that contributed to the low level of support;
    - Other recent compensation actions taken by the company;
  - Whether the issues raised are recurring or isolated;

- The company’s ownership structure; and
- Whether the support level was less than 50 percent, which would warrant the highest degree of responsiveness.

### Frequency Advisory Vote on Executive Compensation (“Say When on Pay”)

- ▶ **General Recommendation:** Vote for annual advisory votes on compensation, which provide the most consistent and clear communication channel for shareholder concerns about companies’ executive pay programs.

### EQUITY-BASED AND OTHER INCENTIVE PLANS

- ▶ **General Recommendation:** Vote case-by-case on certain equity-based compensation plans<sup>10</sup> depending on a combination of certain plan features and equity grant practices, where positive factors may counterbalance negative factors, and vice versa, as evaluated using an “equity plan scorecard” (EPSC) approach with three pillars:

- **Plan Cost:** The total estimated cost of the company’s equity plans relative to industry/market cap peers, measured by the company’s estimated Shareholder Value Transfer (SVT) in relation to peers and considering both:
  - SVT based on new shares requested plus shares remaining for future grants, plus outstanding unvested/unexercised grants; and
  - SVT based only on new shares requested plus shares remaining for future grants.
- **Plan Features:**
  - Automatic single-triggered award vesting upon a change in control (CIC);
  - Discretionary vesting authority;
  - Liberal share recycling on various award types;
  - Lack of minimum vesting period for grants made under the plan;
  - Dividends payable prior to award vesting.
- **Grant Practices:**
  - The company’s three-year burn rate relative to its industry/market cap peers;
  - Vesting requirements in most recent CEO equity grants (3-year look-back);
  - The estimated duration of the plan (based on the sum of shares remaining available and the new shares requested, divided by the average annual shares granted in the prior three years);
  - The proportion of the CEO’s most recent equity grants/awards subject to performance conditions;
  - Whether the company maintains a claw-back policy;
  - Whether the company has established post-exercise/vesting share-holding requirements.

Generally vote against the plan proposal if the combination of above factors indicates that the plan is not, overall, in shareholders’ interests, or if any of the following egregious factors apply:

- Awards may vest in connection with a liberal change-of-control definition;
- The plan would permit repricing or cash buyout of underwater options without shareholder approval (either by expressly permitting it – for NYSE and Nasdaq listed companies – or by not prohibiting it when the company has a history of repricing – for non-listed companies);
- The plan is a vehicle for problematic pay practices or a significant pay-for-performance disconnect under certain circumstances; or
- Any other plan features are determined to have a significant negative impact on shareholder interests.

<sup>10</sup> Proposals evaluated under the EPSC policy generally include those to approve or amend (1) stock option plans for employees and/or employees and directors, (2) restricted stock plans for employees and/or employees and directors, and (3) omnibus stock incentive plans for employees and/or employees and directors; amended plans will be further evaluated case-by-case.

## SOCIAL/ENVIRONMENTAL ISSUES (SHAREHOLDER PROPOSALS)

### Global Approach

Issues covered under the policy include a wide range of topics, including consumer and product safety, environment and energy, labor standards and human rights, workplace and board diversity, and corporate political issues. While a variety of factors goes into each analysis, the overall principle guiding all vote recommendations focuses on how the proposal may enhance or protect shareholder value in either the short or long term.

- ▶ **General Recommendation:** Generally vote case-by-case, taking into consideration whether implementation of the proposal is likely to enhance or protect shareholder value, and in addition the following will also be considered:
  - If the issues presented in the proposal are more appropriately or effectively dealt with through legislation or government regulation;
  - If the company has already responded in an appropriate and sufficient manner to the issue(s) raised in the proposal;
  - Whether the proposal's request is unduly burdensome (scope or timeframe) or overly prescriptive;
  - The company's approach compared with any industry standard practices for addressing the issue(s) raised by the proposal;
  - If the proposal requests increased disclosure or greater transparency, whether or not reasonable and sufficient information is currently available to shareholders from the company or from other publicly available sources; and
  - If the proposal requests increased disclosure or greater transparency, whether or not implementation would reveal proprietary or confidential information that could place the company at a competitive disadvantage.

### Pharmaceutical Pricing, Access to Medicines, and Prescription Drug Reimportation

- ▶ **General Recommendation:** Generally vote against proposals requesting that companies implement specific price restraints on pharmaceutical products unless the company fails to adhere to legislative guidelines or industry norms in its product pricing practices.

Vote case-by-case on proposals requesting that a company report on its product pricing or access to medicine policies, considering:

- The potential for reputational, market, and regulatory risk exposure;
- Existing disclosure of relevant policies;
- Deviation from established industry norms;
- Relevant company initiatives to provide research and/or products to disadvantaged consumers;
- Whether the proposal focuses on specific products or geographic regions;
- The potential burden and scope of the requested report;
- Recent significant controversies, litigation, or fines at the company.

Generally vote for proposals requesting that a company report on the financial and legal impact of its prescription drug reimportation policies unless such information is already publicly disclosed.

Generally vote against proposals requesting that companies adopt specific policies to encourage or constrain prescription drug reimportation. Such matters are more appropriately the province of legislative activity and may place the company at a competitive disadvantage relative to its peers.

## Climate Change/Greenhouse Gas (GHG) Emissions

▶ **General Recommendation:** Generally vote for resolutions requesting that a company disclose information on the risks related to climate change on its operations and investments, such as financial, physical, or regulatory risks, considering:

- Whether the company already provides current, publicly-available information on the impact that climate change may have on the company as well as associated company policies and procedures to address related risks and/or opportunities;
- The company's level of disclosure is at least comparable to that of industry peers; and
- There are no significant controversies, fines, penalties, or litigation associated with the company's environmental performance.

Generally vote for proposals requesting a report on greenhouse gas (GHG) emissions from company operations and/or products and operations, unless:

- The company already discloses current, publicly-available information on the impacts that GHG emissions may have on the company as well as associated company policies and procedures to address related risks and/or opportunities;
- The company's level of disclosure is comparable to that of industry peers; and
- There are no significant, controversies, fines, penalties, or litigation associated with the company's GHG emissions.

Vote case-by-case on proposals that call for the adoption of GHG reduction goals from products and operations, taking into account:

- Whether the company provides disclosure of year-over-year GHG emissions performance data;
- Whether company disclosure lags behind industry peers;
- The company's actual GHG emissions performance;
- The company's current GHG emission policies, oversight mechanisms, and related initiatives; and
- Whether the company has been the subject of recent, significant violations, fines, litigation, or controversy related to GHG emissions.

## Board Diversity

▶ **General Recommendation:** Generally vote for requests for reports on a company's efforts to diversify the board, unless:

- The gender and racial minority representation of the company's board is reasonably inclusive in relation to companies of similar size and business; and
- The board already reports on its nominating procedures and gender and racial minority initiatives on the board and within the company.

Vote case-by-case on proposals asking a company to increase the gender and racial minority representation on its board, taking into account:

- The degree of existing gender and racial minority diversity on the company's board and among its executive officers;
- The level of gender and racial minority representation that exists at the company's industry peers;
- The company's established process for addressing gender and racial minority board representation;
- Whether the proposal includes an overly prescriptive request to amend nominating committee charter language;
- The independence of the company's nominating committee;
- Whether the company uses an outside search firm to identify potential director nominees; and
- Whether the company has had recent controversies, fines, or litigation regarding equal employment practices.

ITEM 29. PERSONS CONTROLLED BY OR UNDER COMMON CONTROL WITH REGISTRANT

Not Applicable

ITEM 30. INDEMNIFICATION

Section 9.5 of the Registrant's Amended and Restated Declaration of Trust provides as follows:

Section 9.5. Indemnification and Advancement of Expenses. Subject to the exceptions and limitations contained in this Section 9.5, every person who is, or has been, a Trustee, officer, or employee of the Trust, including persons who serve at the request of the Trust as directors, trustees, officers, employees or agents of another organization in which the Trust has an interest as a shareholder, creditor or otherwise (hereinafter referred to as a "Covered Person"), shall be indemnified by the Trust to the fullest extent permitted by law against liability and against all expenses reasonably incurred or paid by him or in connection with any claim, action, suit or proceeding in which he becomes involved as a party or otherwise by virtue of his being or having been such a Trustee, director, officer, employee or agent and against amounts paid or incurred by him in settlement thereof.

No indemnification shall be provided hereunder to a Covered Person to the extent such indemnification is prohibited by applicable federal law.

The rights of indemnification herein provided may be insured against by policies maintained by the Trust, shall be severable, shall not affect any other rights to which any Covered Person may now or hereafter be entitled, shall continue as to a person who has ceased to be such a Covered Person and shall inure to the benefit of the heirs, executors and administrators of such a person.

Subject to applicable federal law, expenses of preparation and presentation of a defense to any claim, action, suit or proceeding subject to a claim for indemnification under this Section 9.5 shall be advanced by the Trust prior to final disposition thereof upon receipt of an undertaking by or on behalf of the recipient to repay such amount if it is ultimately determined that he is not entitled to indemnification under this Section 9.5.

To the extent that any determination is required to be made as to whether a Covered Person engaged in conduct for which indemnification is not provided as described herein, or as to whether there is reason to believe that a Covered Person ultimately will be found entitled to indemnification, the Person or Persons making the determination shall afford the Covered Person a rebuttable presumption that the Covered Person has not engaged in such conduct and that there is reason to believe that the Covered Person ultimately will be found entitled to indemnification.

As used in this Section 9.5, the words "claim," "action," "suit" or "proceeding" shall apply to all claims, demands, actions, suits, investigations, regulatory inquiries, proceedings or any other occurrence of a similar nature, whether actual or threatened and whether civil, criminal, administrative or other, including appeals, and the words "liability" and "expenses" shall include without limitation, attorneys' fees, costs, judgments, amounts paid in settlement, fines, penalties and other liabilities.

Insofar as indemnification for liability arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant, in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

ITEM 31. BUSINESS AND OTHER CONNECTIONS OF THE INVESTMENT ADVISER
