

DIVO

Dividend & Option Income ETF

Announcing a change to the dividend payment frequency in the [Amplify YieldShares CWP Dividend & Option Income ETF \(DIVO\)](#).

DIVO will now pay distributions on a monthly basis, transitioning from a quarterly basis.

This transition will take effect with the July distribution, which will be paid on Aug 1 (with a record date of July 31 and ex-dividend date of July 30).

More information on this change and the Fund in general can be found at the [DIVO website](#).

ETF Name	Ticker	Distribution Yield*	30-Day SEC Yield*	Distribution Frequency
Amplify YieldShares CWP Dividend & Option Income ETF	DIVO	4.75%	1.43%	Monthly

* Yield figures as of 6/30/2018.

This information is not intended to provide and should not be relied upon for accounting, legal or tax advice, or investment recommendations. To receive a distribution, you must be a registered shareholder of the fund on the record date. Distributions are paid to shareholders on the payment date. There is no guarantee that capital gains distributions will not be made in the future. Your own trading will also generate tax consequences and transaction expenses. Past distributions are not indicative of future distributions. Please consult your tax professional or financial adviser for more information regarding your tax situation.

Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in Amplify Funds statutory and summary prospectus, which may be obtained [here](#), by calling 855-267-3837, or by visiting AmplifyETFs.com. Read the prospectus carefully before investing.

Investing involves risk, including the possible loss of principal. The fund is new with limited operating history. You could lose money by investing in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. There can be no assurance that the Fund's investment objectives will be achieved. Covered call risk is the risk that the Fund will forgo, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but has retained the risk of loss should the price of the underlying security decline. The Fund may invest in mid-capitalization companies. This may cause the Fund to be more vulnerable to adverse general market or economic developments because such securities may be less liquid and subject to greater price volatility than those of larger, more established companies. Because the Fund is non-diversified and can invest a greater portion of its assets in securities of individual issuers than a diversified fund, changes in the market value of a single investment could cause greater fluctuations in Share price than would occur in a diversified fund.

Amplify Investments LLC is the investment adviser to the Fund. Capital Wealth Planning, LLC (CWP) and Penserra Capital Management LLC serve as investment sub-advisers to the Fund.

Amplify ETFs are distributed by Quasar Distributors LLC.
